In today's fast-evolving industrial landscape, staying relevant means more than just keeping pace; it means setting the pace. Manufacturers are demanding not just precision, but intelligent, reliable systems that adapt seamlessly to their production lines. In such an environment, the ability to deliver not only consistent quality but also future-ready innovation is what separates industry leaders from the rest. At Control Print, this belief is at the heart of everything we do.

Our journey in a market built on precision, speed, and reliability is defined by three decisive actions: **Mark, Move, Master.** These are not just words but a long-term playbook for leadership in coding and marking, for diversification into high-technology adjacencies, and for keeping pace with the evolving realities of modern manufacturing.

Coding and Marking remain key pillars of our business. With manufacturing facilities in Nalagarh and Guwahati, we manufacture a full range of printers and consumables, and also offer training, repair services, and lab testing. By FY 2024-25, the installed base crossed 21,000+ printers each active at customer sites driving recurring revenues from consumables and services. Backed by a 350+ member sales and service team, Control Print ensures strong post-sales support, fostering customer loyalty and brand trust.

Over the years, we sharpened our focus on larger, high-value accounts. While this shift introduces some quarter-to-quarter variability, it enhances revenue per printer and builds long-term relationships focussed on reliability over cost. Growth remains steady in sectors like Dairy, Plywood, Cement, and Sugar, while core segments such as Pipes, Cable & Wire, and Metal remain strong.

Our international expansion is unfolding through strategic subsidiaries; viz. Codeology Group Ltd. (UK), Markprint BV (Netherlands), and Control Print MEA FZE (UAE), allowing us to tap into newer markets, shorten product development cycles, and boost innovation. To future-proof our business, Control Print is investing in adjacent technologies. Our in-house Track and Trace solution, QRiousCodes, is seeing promising adoption in the pharmaceutical sector, supported by patents and early client wins. Similarly, our entry into next-generation single-dose packaging via the acquisition of V-Shapes and the formation of CP Italy S.r.l. has laid the groundwork for IP-led, locally manufactured innovations.

'Mark. Move. Master.' captures our intent with clarity; to consolidate our core, scale with intent, and invest in innovation. It is a strategy that positions us not just to lead the market today, but to shape its future.

CONTROL PRINT AT A GLANCE

Established in 1991, Control Print Limited ('Control Print,' 'We' or 'The Company') has grown to become India's leading home grown manufacturer in the coding and marking industry. Today, the Indian coding and marking market is estimated at ₹ 2,000-2,200 Crores and is largely consolidated, with four major players accounting for nearly 75-80% of the domestic market. We take pride in being the only Indian company amongst this group. Within the organised segment, we hold a market share of 19-20% and have consistently outperformed industry growth benchmarks. The sector itself is expected to expand at 1.5 times the rate of GDP, and our strong performance has helped us achieve ₹ 385 Crores in revenue from our standalone India operations.

Markprint and Codeology represent strategic, complementary extensions to our core coding and marking business. While we are focussed on expanding our footprint in international markets, we are equally committed to manufacturing and marketing these solutions within India. Early results have been encouraging, with key orders secured from major customers. To build on this momentum, we have established a subsidiary in the Middle East to tap into regional opportunities, leveraging both our India operations and the unique strengths of Markprint and Codeology. This expansion is set to accelerate our growth beyond the traditional trajectory of our core business.

At Control Print, we operate through two key divisions: Coding & Marking and Packaging, with a strategic focus on expanding our footprint in the packaging segment. We are actively strengthening our capabilities in Track and Trace solutions and have introduced V-Shapes, an innovative mono-dose packaging technology currently manufactured in Italy, with plans in progress for partial localisation in India. Our comprehensive product range, from industrial inkjet and laser coders to thermal inkjet printers, is designed to enhance productivity, reduce downtime, and optimise coding operations. We also take pride in offering comprehensive customer support through structured training programmes, responsive technical service, and customised solutions tailored to the specific needs of diverse industries.

Vision

To be South Asia's leading coding and marking solutions provider.

Our Background

For over 30 years, Control Print has developed deep domain expertise in serving the unique needs of Indian industries. Since 1991, we have delivered customised coding and marking solutions across sectors like personal care, F&B, pharma, construction, cables, metals, automotive, electronics, and chemicals. Supported by advanced manufacturing capabilities, a nationwide service network, and a base of over 21,000 installations, we have become a trusted partner for reliable, compliant, and performance-driven coding solutions tailored to India's diverse operating environments.

Our Workforce

We have cultivated highly skilled and diverse workforce with expertise spanning agriculture, IT, manufacturing, ESG, and other fields. As of 31 March 2025, our team comprised 882 dedicated individuals. Nearly half of our employees, or 48%, have been loyal members for at least five years as of the end of FY 2024-25.

Our Research and Development

We are at the forefront of technological innovation, continuously advancing its products to meet the ever-evolving industry standards. Our leadership in this space is powered by a strong R&D foundation and dedicated engineering teams. Unlike competitors that depend on imports, Control Print designs and manufactures its entire product portfolio in India. Its innovation capabilities are enhanced through strategic partnerships with global leaders like KBA-Metronic (Germany). Our state-of-the-art manufacturing facilities, equipped with in-house labs and testing infrastructure, ensure robust product development and quality control.

Manufacturing Excellence

CRAFTING SUCCESS THROUGH QUALITY AND EFFICIENCY

At Control Print, we address a wide range of customer needs through advanced manufacturing capabilities and a skilled workforce, delivering high-performance, cost-effective solutions tailored for Indian industries. Our products are engineered to endure harsh factory environments, ensuring reliability and minimal downtime. Backed by nationwide training and service support, we have earned strong customer trust. This operational strength continues to drive market share expansion and recurring revenue from consumables. As India's only major domestic player in coding and marking, we compete successfully with global peers.

Our Competitive Edge

- Scalable Manufacturing with Operational Precision:** Control Print combines scalable operations with high precision, ensuring quality and consistency across growing volumes.
- Integrated and Strategically Located Facilities:** The Company's manufacturing units are strategically located and fully integrated, supporting seamless production, faster delivery, and efficient logistics.
- Advanced Manufacturing Systems:** Adoption of robust ERP systems allows streamlined management of inventory, raw materials, and spares, enhancing operational efficiency and minimising downtime.
- Industry-Specific Product Expansion:** Continued expansion of printer offerings in sectors like food, dairy, and beverages has reinforced the Company's presence in high-growth markets.
- Sustained Market Share Consolidation:** We have strengthened our foothold in key sectors, including pipes, cables, metals, wood, sugar, cement, and plywood, with growing traction in both public and private sector projects.
- R&D-Driven Product Innovation:** Our dedicated in-house R&D team develops tailored, industry-specific solutions, supporting long-term innovation and customer-centric product development.
- Global Collaboration for Technological Edge:** Strategic alliances with European and Italian firms enable the adoption and localisation of advanced global technologies for the Indian market.
- Skilled Workforce with Continuous Training:** Ongoing investment in workforce training enhances manufacturing capabilities, fosters a culture of continuous improvement, and ensures readiness for future demands.

Way Forward

Control Print is expanding manufacturing capacity with a strategic focus on high-growth segments such as packaging materials. The Company aims to increase localisation of production in India while leveraging global expertise for specialised machinery. Ongoing investments in process optimisation, strategic sourcing, and R&D are enhancing efficiency and enabling product diversification. With scalable infrastructure in place and plans to transition select overseas manufacturing, such as V-Shapes from Italy, to India, we are well-positioned to enhance cost efficiency and strengthen supply chain resilience.

Message from the Chairman

BUILDING ON LEGACY AND CREATING IMPACT

Our Goal is to be a global player in coding and marking, while maintaining our quality and efficiency.

Dear Shareholders,

At Control Print Limited, our journey since 1991 has been driven by innovation, resilience, and a commitment to building self-reliant, world-class solutions. As India's only domestic manufacturer of coding and marking equipment, we are proud to offer end-to-end, locally manufactured solutions that serve a wide array of industries.

This year's theme; Mark. Move. Master. reflects our strategic direction: strengthening our core business, expanding into high-potential adjacencies, and investing in future-ready innovations. It captures our intent to lead with purpose, respond with agility, and create long-term value.

FY 2024-25 was a year of measured growth and strategic advancement. We consolidated our domestic market share at 19-20%, supported by strong

manufacturing capabilities in Nalagarh and Guwahati, an expanding installed base of over 21,000 printers, and recurring revenues from consumables. We sharpened our focus on high-value customers in sectors such as dairy, plywood, and cement, while maintaining strong contributions from pipes, cables, and metal. Internationally, we expanded through subsidiaries in the UK, Netherlands, UAE, and continued to diversify through innovation-led platforms such as QRiousCodes and V-Shapes in Italy.

Our financial prudence was reaffirmed by CRISIL, which maintained our CRISIL A (Stable) long-term rating and CRISIL A1 short-term rating, reflecting operational strength and stability.

Global and Domestic Landscape

Despite geopolitical and economic challenges, the global economy grew by 3.3% in 2024, with growth for 2025 projected at 2.8%. India continues to outperform, with GDP growth estimated at 6.5% for FY 2024-25, driven by strong domestic fundamentals and sustained industrial momentum. These macro trends are encouraging for Control Print, as demand increases for reliable, locally manufactured coding and marking equipment under initiatives like 'Make in India'.

Financial Performance

On a consolidated basis, in FY 2024-25, we achieved our highest-ever revenue, with net sales of ₹ 4,250.3 Million, marking an 18.3% YoY growth. Printer sales were strong, driven by targeted marketing initiatives and enhanced product visibility. Gross profit stood at ₹ 2,463.01 Million, with a margin of 57.95%, impacted by a higher proportion of lower-margin printer sales. EBITDA reached ₹ 800.9 Million, with a margin of 18.84%, reflecting increased investments in marketing and customer engagement. PAT (excluding exceptional items) stood at ₹ 1,000.5 Million, representing a year-on-year growth of 84.5%, and EPS at ₹ 62.56.

India's robust industrial momentum continues to provide a strong tailwind for Control Print's growth.

Operational Overview

At Control Print, our comprehensive product portfolio covering CIJ, TIJ, laser, and large character printers continues to experience strong demand from sectors like food, dairy, cables, steel, and pipes. Our manufacturing units operate at 60-65% capacity, and we sold 2,927 printers this year. We advanced our strategy by targeting larger accounts to enhance long-term, high-quality revenue and broadened our reach among smaller clients through dedicated lead generation efforts.

Our Three-Pronged Long-Term Growth Strategy

1

Expanding the Reach of Our Coding and Marking Business in India and Globally

We are focussed on outpacing industry growth within India through our existing standalone operations. At the same time, we are expanding our international presence by growing the Markprint and Codeology businesses across Europe and the U.K. Additionally, we have started introducing products from these international businesses into the Indian market, several of which are already available and gaining initial traction.

2

Scaling Up Our Track and Trace Business

Through QRiousCodes, our dedicated Track and Trace solutions brand, we offer a robust, cloud-based platform that enhance supply chain visibility and ensure product authenticity. By leveraging advanced QR code technology, QRiousCodes empowers businesses to safeguard their products, optimise logistics, and build deeper consumer trust through transparency and traceability.

3

Strengthening Our Presence in the Packaging Business

We are actively entering and expanding in the packaging segment by leveraging V-Shapes, our innovative single-use packaging technology. Our approach includes not only the supply of advanced packaging equipment but also associated materials, offering a fully integrated solution for modern packaging needs.

Outlook

India's robust industrial momentum continues to provide a strong tailwind for Control Print's growth. As domestic manufacturing accelerates under national initiatives and sectoral demand intensifies, we are seeing greater adoption of coding and marking solutions across core industries. This favourable environment not only reinforces the strength of our core business but also creates fertile ground for strategic diversification.

Building on this momentum, we are expanding into high-potential areas such as Track and Trace solutions and mono-dose packaging through our V-Shapes

venture in Italy. These initiatives are aligned with evolving industry needs, regulatory developments, and global packaging trends.

We remain confident in our ability to deliver sustainable, long-term growth by combining disciplined execution with innovation and a customer-first approach. As we scale operations and broaden our market presence, our focus remains on preserving healthy gross margins and building a resilient, future-ready business.

Best Regards,

Basant Kabra

Unfolding the Story of Track and Trace Solutions

NAVIGATING THE FUTURE OF TRACK AND TRACE

As global supply chains become more complex and consumer expectations evolve, the need for transparency, authenticity, and compliance has grown exponentially. At Control Print, we recognise that Track and Trace is no longer optional; but essential. To meet diverse needs ranging from regulatory compliance and anti-counterfeiting to data analytics and customer engagement, we are developing a robust, future-ready ecosystem of QR-based track and trace solutions under our dedicated brand, QRiousCodes.

Why Track and Trace Matters?

Our Track and Trace solutions are designed to:

- Ensure regulatory compliance across geographies.
- Prevent counterfeiting and product diversion.
- Enable real-time inventory management.
- Offer deep analytics for smarter decision-making.
- Enhance consumer engagement through interactive experiences.

QRiousCodes: Our Comprehensive Track and Trace Platform

QRiousCodes is a complete, cloud-based track and trace solution offering seamless end-to-end traceability and enhanced supply chain visibility. Built with core, differentiated, and innovative technologies, it delivers not just functionality but also a superior, aesthetic user experience.

Key features include:

- **Advanced QR Code Technology:** Secure, dynamic, and unique identifiers for every product.
- **DLT/Blockchain-enabled UIDs:** Non-duplicable digital identities for unmatched product authenticity.
- **Cloud-application Integration:** Real-time data flow between our platform and customer brand websites.
- **Proprietary Hybrid Solution:** Merges cloud-based intelligence with on-ground product security.

A Complete Suite of Offerings

- Equipment for QR code printing and application.
- Materials and consumables to ensure long-lasting, high-quality codes.
- Co-packing services for small volumes and market testing.
- Analytics and reporting tools for real-time insights and strategic decision-making.
- Customer engagement features embedded into every scan.
- Compliance support for both domestic and international regulatory frameworks.

Full-Stack In-House Capabilities

What makes QRiousCodes unique is its ability to deliver a fully integrated, end-to-end platform that is entirely developed and supported in-house.

Key Features Include:

- **Hardware:** Printers and systems tailored for high-speed, high-resolution QR code application.
- **Consumables:** Secure, high-performance inks and materials to ensure scanability and durability.
- **Software:** Custom-developed cloud applications for data capture, analytics, reporting, and visualisation.

Way Forward

We believe that Track and Trace solutions are the next frontier in coding and marking driving traceability, anti-counterfeiting, regulatory compliance, and customer engagement. With QRiousCodes, we are not just offering a product but delivering an intelligent, agile, and scalable platform that enables our customers to stay ahead in an increasingly connected and competitive world.

Unfolding the Story of V-Shapes

SHAPING THE FUTURE WITH V-SHAPES

Our acquisition of certain business assets of V-Shapes SRL, through our Italian subsidiary, CP Italy S.r.l., is a strategic step in our journey to diversify into high-IP, sustainable packaging technologies. With this move, we are expanding our global footprint while adding advanced, eco-friendly single-serve packaging solutions to our portfolio. By retaining V-Shapes' core expertise in Italy and integrating it with our in-house capabilities, we are creating powerful synergies that reinforce our position as a comprehensive solutions provider in the global packaging industry.

Revolutionising Single-Dose Packaging in India

- ✿ State-of-the-art packaging machinery for single-dose sachets in India.

The Big Picture

INSIGHTS INTO THE OPERATING LANDSCAPE

In an era where manufacturing, packaging, and regulatory compliance are rapidly evolving, Control Print continues to serve as a key enabler within India's industrial landscape. As the country's leading provider of coding and marking solutions, we empower a broad spectrum of industries, from food and beverages to pharmaceuticals, automotive, and construction materials, to meet rising demands for traceability, regulatory compliance, and brand protection.

Control Print's Edge

Cement manufacturing environments are harsh, characterised by extreme heat and heavy dust—which present significant challenges for coding and marking equipment. Yet, given the industry's high production throughput and cost sensitivity, maximising coder uptime and ensuring reliable performance are essential for maintaining operational efficiency and minimising disruptions.

Control Print's Edge

As environmental consciousness intensifies, the shift towards sustainable packaging is accelerating. This transformation calls for flexible, eco-compatible coding solutions that align with emerging materials and packaging formats. In response, the demand for versatile coding and marking equipment is expected to grow, driven by the need for compliance, clarity, and environmental responsibility.

Control Print's Edge

Coding solutions are essential for marking chemical and lubricant products with critical details like batch numbers, manufacturing dates, safety warnings, and regulatory compliance labels. As regulatory standards tighten and safety concerns increase, the demand robust and efficient coding solutions in this sector continues to grow, driving significant momentum across the industry.

Control Print’s Edge

Steel plays a pivotal role in the production of containers, crates, and pallets used in heavy-duty packaging and logistics. To ensure accurate identification, seamless tracking, and effective inventory control during transportation, reliable coding and marking on steel surfaces is essential, driving demand for durable, high-performance equipment tailored to steel-based applications.

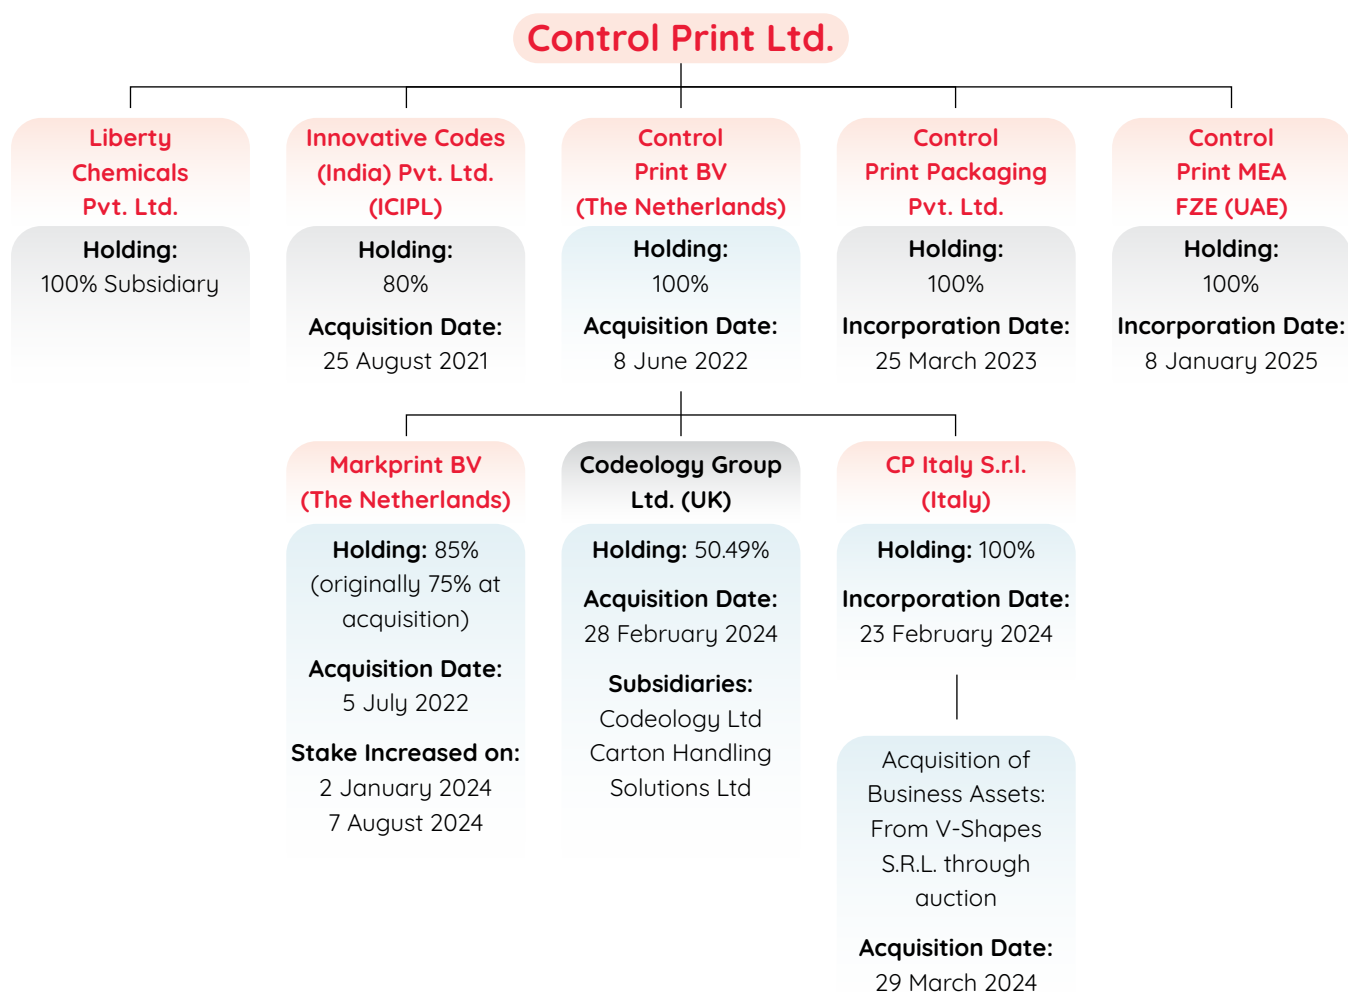

Our Acquisition History

POWERING PROGRESS THROUGH ACQUISITIONS

Building on our strong foundation in India, we are now preparing to undertake a strategic acquisition that will strengthen our capabilities and expand our global presence. Internationally, the manufacturing sector is witnessing similar trends, with companies investing in advanced automation, digitalisation, and traceability solutions to drive efficiency and compliance. Control Print's focus on expansion through acquisitions and innovation positions us to capitalise on these global shifts, deliver cutting-edge solutions, and create long-term value for our customers worldwide.

CHARTING THE ROAD AHEAD

At Control Print, we are laying the groundwork for sustained, high-impact growth driven by innovation, customer centricity, and a bold vision for the future. As we advance through FY 2024-25 and beyond, our strategic focus is clear and deliberate.

Higher Consumables Sales

Higher consumables sales driven by improved industrial production and increased printer installations.

New Capabilities and Products

Recently launched and acquired advanced products and technologies aimed at delivering exponential growth over the next 5-7 years.

Customer-Centric Strategy

Focussing on customers with larger sales volumes, enhanced client servicing, and continuous introduction of new products.

Targeted Marketing and Sales

Implementing focussed marketing plans to reach last-mile users, supported by an internal dedicated team for lead generation and direct sales to smaller customers.

Global Market Expansion

Accessing global markets and acquiring new products and technologies through both organic growth and strategic acquisitions.

Track and Trace Business Growth

Accelerating growth in the track and trace segment, supported by government mandates for the top 1,000 pharmaceutical drugs.

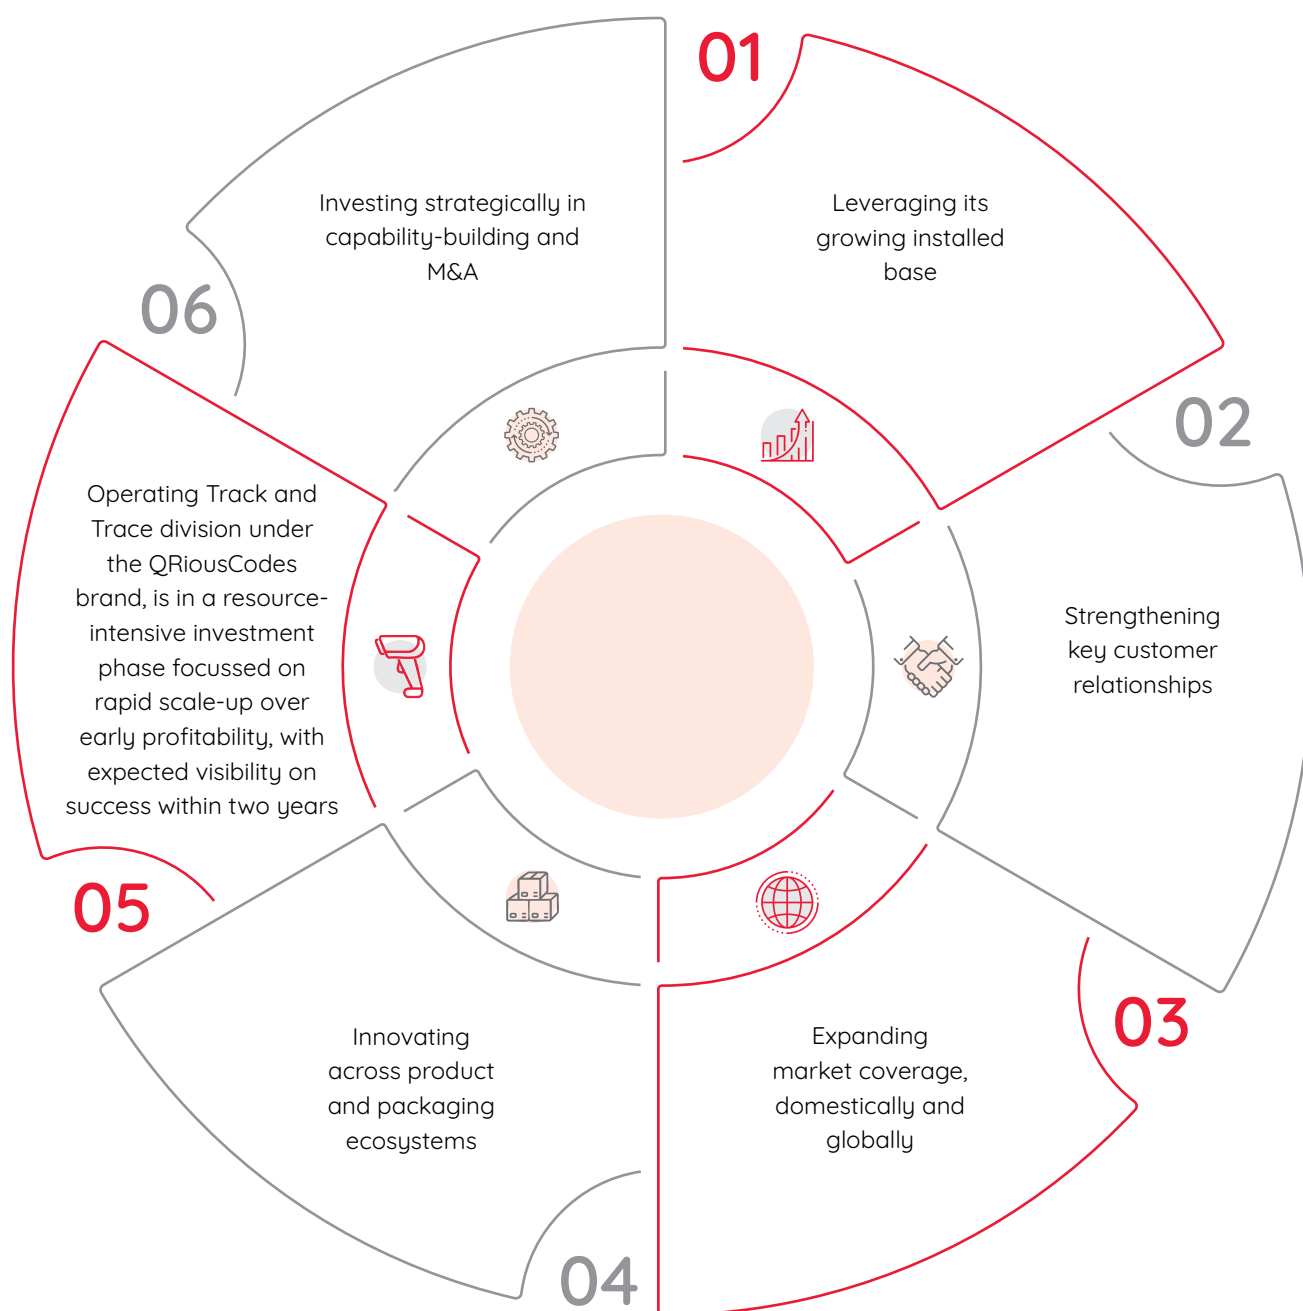

Packaging Business

Delivering exponential growth by capitalising on innovative single-use packaging technology.

The Big Picture: Long-Term Value Creation

Control Print is actively transforming into a future-ready company, one that is:

Our trajectory is anchored in sustainable innovation, strategic execution, and a relentless focus on long-term value creation, for our customers, partners, and shareholders alike.

Building A Responsible Future

At Control Print, we prioritise sustainability by actively working to reduce our carbon footprint and adopt eco-friendly practices. We advocate for a circular economy by focussing on recycling plastic waste and partnering with third-party agencies to ensure responsible waste management. Furthermore, our adoption of the ISO 45001:2018 Occupational Health and Safety System reinforces our commitment to a safe working environment, contributing to both societal well-being and environmental preservation.

Our Initiatives

Control Print partners with external agencies to fulfil Extended Producer Responsibility by recycling all plastic waste, including packaging materials. We also run a buyback/exchange programme for e-waste, collecting and responsibly dismantling old printers for proper disposal. Hazardous waste is managed through certified, compliant disposal sources, while consumables are provided to authorised disposal organisations. Non-hazardous waste is collected by local regulatory bodies for proper disposal and recycling.

People: Social Commitment

At Control Print, we are deeply committed to workplace safety and fostering strong community engagement. We enforce strict safety protocols, including mandatory use of personal protective equipment (PPE) for all employees, to ensure a secure working environment. Our comprehensive emergency preparedness measures include clearly defined on-site and off-site emergency response plans, with prominently marked exits to enable swift evacuation. Standard operating procedures (SOPs) for hazard identification are regularly reinforced through mock drills, empowering our teams to respond quickly and effectively in crisis situations. Through these initiatives, we aim to foster a culture of safety and shared responsibility, one that extends beyond the workplace and positively impacts the broader community.

Our Initiatives

Control Print prioritises employee well-being through various initiatives, such as:

- ✿ Safety awareness programmes and Safety Day/Week celebrations.
- ✿ Sponsorship of industrial safety education initiatives.
- ✿ Appointment of dedicated safety officers.
- ✿ Designation of emergency meeting points and installation of alert sirens.
- ✿ Implementation of hazard identification systems across all work areas.
- ✿ Active employee participation encouraged in identifying and resolving risks.
- ✿ Comprehensive group medical insurance coverage.

Commitment To Governance

At Control Print, we recognise that corporate governance is a continuous process. We uphold transparency, accountability, fairness, and ethics as foundational principles reflected in our governance framework. Our business practices, including administration and disclosures, adhere to established standards, supported by robust controls that ensure executive decisions are aligned with long-term growth and stakeholder value. Through innovation, we remain committed to preserving and advancing our core values.

Hear from Our Happy Customers

We are highly satisfied with the performance of all eight Control Print Ltd. INK JET NEO Printers (all using pigmented ink) that we have been using. The print quality has been excellent, and the overall performance has met our expectations. We are particularly pleased with the uninterrupted service provided by your dedicated service engineer, Mr. Shudhwaloke Chakraborty, who has been consistently prompt and professional. We wish Control Print Ltd. continued success and look forward to receiving the same high level of service support in the future.

- **The Supreme Industries Limited**

We have been using Control Print's CIJ Neo Printer at our Haldia Plant for batch coding and are very satisfied with the service support we have received. The assistance provided, both over the phone and through direct visits from your dedicated service engineer, has been excellent. The printer's performance has been outstanding. We wish Control Print continued success and look forward to receiving the same high level of service support in the future.

- **Manaksia Steels Limited**

The service provided for our existing Alfa Jet Printing Machines by Mr. Shudhwaloke Chakraborty has been highly satisfactory. During any emergency breakdowns, he has consistently been cooperative, offering support through tele-discussions and even making direct visits when necessary.

- **Jyothi Laboratories Limited**

We are very satisfied with the level of service support we have received, both over the phone (even during late hours) and through direct visits from your dedicated service engineer. The performance of the printer has been excellent. We wish Control Print continued success and look forward to receiving the same high level of service support in the future.

MANAGEMENT DISCUSSION AND ANALYSIS

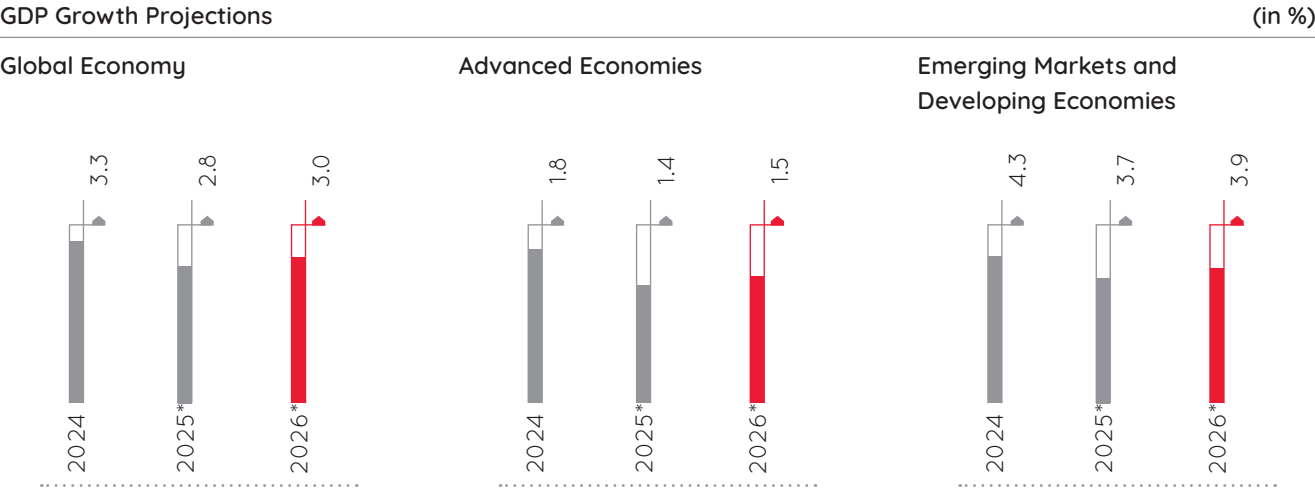

GLOBAL ECONOMIC OVERVIEW

In 2024, the global economy registered a steady growth of 3.3%, indicating a degree of resilience amid broader economic headwinds. However, momentum remained subdued, constrained by ongoing policy uncertainty driven by geopolitical tensions, trade disputes, and rising protectionist measures, all of which dampened business confidence and curtailed investment activity. High interest rates aimed at curbing inflation further dampened borrowing and economic activity. Structural challenges such as subdued investment, sluggish productivity, and high debt levels especially in

low-income countries, continued to weigh on the recovery. Labour market frictions and slowing growth in key emerging markets such as China, further added to the strain. However, as we move through 2025, the global landscape is experiencing a meaningful shift, shaped by nations recalibrating their policy priorities in response to intensifying geopolitical tensions and mounting economic pressures.

In 2024, the introduction of broad-based tariff measures by the United States and retaliatory actions by key trade partners led to a sharp rise in global tariff rates, disrupting

trade and dampening growth. The rapid and unpredictable nature of these policy shifts has heightened economic uncertainty and complicated forecasting. Amid ongoing volatility, global headline inflation is now projected to ease more gradually, moderating to 4.3% in 2025 and 3.6% in 2026. While inflation estimates have been revised upward for advanced economies, these are partially offset by downward adjustments in emerging markets.

(Source: World Economic Outlook, April 2025)

* Projected

Global growth prospects for 2025 have weakened across key advanced and emerging economies. In the US, GDP is projected to slow to 1.8% due to restrictive monetary policy and trade disruptions, with inflation staying elevated around 3%. China's growth is projected to ease to 4%, pressured by weak external demand, domestic deleveraging, and ongoing structural adjustments, alongside persistent deflationary risks. In the Euro Area, growth has been revised down to 0.8%, driven by subdued consumer spending and energy-related concerns. Several emerging markets, such as Mexico, South Africa, and

Argentina, are also facing slower growth due to high debt levels, depreciating currencies, and tighter financial conditions, which are constraining policy flexibility and heightening economic vulnerability.

Rising fragility in the financial system, particularly among emerging markets and non-bank financial institutions (NBFIs), is contributing to heightened uncertainty. This vulnerability is compounded by equity market volatility, stretched asset valuations, and elevated corporate debt. Central banks now face the complex task of containing inflation while safeguarding financial stability. Emerging markets are

particularly vulnerable due to rising sovereign debt costs, capital outflows driven by interest rate differentials, and depreciating currencies, which exacerbate inflation and macroeconomic risks. These factors increase the risk of sudden investment stops and debt distress. In the absence of timely multilateral support and structured debt resolution, financial stress in emerging markets could escalate considerably.

OUTLOOK

Despite persistent global economic headwinds, 2025 offers a distinct opportunity for companies like Control Print to build resilience and advance sustainable growth. While global GDP growth is projected at a modest 3.1%, emerging markets such as India are expected to lead the recovery, supported by robust manufacturing and infrastructure expansion.

For the Company, this environment points to rising demand for coding and marking solutions across core sectors such as manufacturing,

pharmaceuticals, automotive, and construction—industries that are pivotal to India's economic growth. Coordinated policies promoting stable trade, timely debt resolution, and structural reforms will enhance market stability and support long-term investments.

Maintaining clear monetary policy and fiscal discipline globally will help restore financial stability, benefitting industrial supply chains and capital investments. Furthermore, greater international cooperation and aligned policy

strategies are expected to support a more balanced and inclusive global recovery, creating new opportunities for the Company to strengthen its presence both in domestic and international markets. By harnessing favourable macroeconomic trends and maintaining a strong focus on innovation and customer-centric solutions, the Company is well-positioned to capitalise on the gradual yet resilient economic recovery unfolding in India and globally through 2025 and beyond.

INDIAN ECONOMIC OVERVIEW

India's economic outlook remains strong, with a projected growth rate of 6.5% for FY 2024-25, underscoring the country's resilience amid ongoing global economic uncertainties. This projection is supported by strong domestic demand, ongoing reforms, major infrastructure investments, stable private consumption, and robust performance in agriculture and services. In 2024, India surpassed Japan to become the world's fourth-largest economy in nominal GDP terms, a milestone that underscores India's strong economic growth alongside Japan's relative stagnation. The shift is attributed to India's strong growth momentum and the depreciation of the Japanese Yen, which lowered Japan's GDP in dollar terms, while targeted government measures, steady consumption, and improved labour market conditions continue to reinforce India's positive growth outlook.

(Source: <https://www.imf.org/en/Publications/WEO>)

A key driver of this growth is the industrial sector, projected to expand by 6.2% in FY 2024-25, led by strong performances in construction and utilities. However, this marks a moderation from the previous year's impressive 9.5% growth in manufacturing, reflecting a confluence of external and domestic factors. This includes subdued global demand that has dampened manufacturing exports, aggressive trade policies by major partners, and disruptions from an above-average monsoon. While the monsoon benefited agriculture, it temporarily affected mining, construction, and some manufacturing activities.

(Source: <https://tradingeconomics.com/india/manufacturing-pmi#:~:text=Growth%20Remains%20Strong-,The%20HSBC%20India%20Manufacturing%20PMI%20fell%20to%2057.1%20in%20February,reported%20higher%20outlays%20on%20food.>)

Additionally, variations in the timing of major festivals between years contributed to fluctuations in production cycles and growth rates.

Despite these challenges, the manufacturing sector continues to exhibit strong momentum. India's manufacturing Purchasing Managers' Index (PMI) stood at 56.9 in February 2025, slightly down from 57.5 in January 2025. Despite this modest dip, PMI remains well above the 50-mark, indicating continued solid expansion in the manufacturing sector. Growth continues to be fuelled by strong domestic and international demand, increased

hiring, and improving supply chains, even as inflationary pressures persist. Investor sentiment towards manufacturing stocks remains optimistic, as reflected in the Nifty India Manufacturing Index, which posted a modest growth of 0.47% in March 2025, closing at 13,890.75 points. This positive trend was driven by improved corporate earnings, increased foreign investment, and technological advancements that helped manufacturers sustain profitability despite rising costs, especially in consumer goods, chemicals, and pharmaceuticals.

Outlook

As India prepares for FY 2025-26, the country's economic prospects remain cautiously measured in the face of ongoing geopolitical uncertainties, trade disruptions, and the potential for commodity price fluctuations. On the domestic front, maintaining the momentum of private sector investment, strengthening consumer confidence, and accelerating corporate wage growth will be essential to sustaining GDP growth. Rural demand is expected to rise as agriculture recovers, food inflation stabilises, and macroeconomic conditions remain favourable. To enhance medium-term economic resilience, India must focus on boosting its global

(Source: Economic Survey 2024-25)

competitiveness through structural reforms and deregulation at the grassroots level. Creating a more business-friendly environment will be critical to mitigating external vulnerabilities and ensuring long-term economic viability.

GLOBAL CODING AND MARKING SOLUTION INDUSTRY OVERVIEW

The Coding and Marking Solutions Market is projected to grow from US\$ 8.62 Billion in CY 2025 to US\$ 11.79 Billion by CY 2030, at a (CAGR) of 6.46% during the forecast period (CY 2025-CY 2030). A primary driver of this growth is the increasing demand for processed and packaged food. This trend is further reinforced by rising disposable incomes and rapid urbanisation particularly in emerging economies such as India and China which have significantly boosted the consumption of packaged goods. Modern retail growth, changing lifestyles of people, aggressive marketing

strategies and healthier options of products have boosted the demand for packaged products ultimately helping our market grow.

This has led to a growing demand for dependable coding and marking systems on food packaging, both to comply with strict regulatory standards and to support brand differentiation. Accurate coding plays a critical role in enabling traceability throughout the supply chain, thereby enhancing operational efficiency and compliance.

The Asia-Pacific region holds the largest share of the global

coding and marking market and is projected to witness strong growth during the forecast period. This expansion is driven by rapid industrialisation, ongoing urban development, and the continued growth of the manufacturing sector, all of which are boosting demand for advanced coding and marking solutions. Moreover, increasing regulatory mandates and the emphasis on product traceability are prompting companies across the region to invest in cutting-edge technologies, aiming to ensure supply chain transparency and regulatory compliance.

GLOBAL GROWTH DRIVERS

Scaling FMCG Sector

The Fast-Moving Consumer Goods (FMCG) market was valued at US\$ 13.58 Trillion in CY 2023 and is projected to grow from US\$ 14.1 Trillion in CY 2024 to US\$ 18.96 Trillion by CY 2032, at a CAGR of 3.8% during the forecast period (CY 2025-CY 2032). The fast-growing FMCG sector is fuelling increased demand for efficient and precise coding and marking solutions to ensure product traceability, authenticity, and compliance with stricter regulatory standards.

Growth in Automotive Industry

As of 2025, the global automotive industry market size is estimated to be around US\$ 3.5 Trillion. The Asia-Pacific region accounted for nearly half of the global market share, underlining its dominance. As the automotive sector continues to evolve, so does the demand for reliable and efficient coding and marking technologies. These are essential for meeting complex manufacturing requirements and regulatory compliance.

Expanding Pharmaceutical Sector

The global pharmaceutical market is projected to reach around US\$ 1.77 Trillion by CY 2025, with further growth expected to push it to US\$ 3.03 Trillion by CY 2034, highlighting a strong and sustained upward trajectory. As the sector grows, so does the need for precise, compliant, and efficient coding and marking solutions vital for ensuring product safety, meeting regulatory requirements, and enhancing supply chain transparency.

Growing Food and Beverage Industry

The global food and beverage industry is expected to grow from US\$ 6.96 Trillion in CY 2024 to approximately US\$ 7.4 Trillion in CY 2025, registering a CAGR of 6.3%. With this growth, there is an increasing emphasis on accurate and efficient coding and marking systems to ensure product safety, facilitate traceability, and maintain regulatory compliance especially important in a highly regulated and consumer-sensitive sector.

INDIAN CODING AND MARKING SOLUTION INDUSTRY OVERVIEW

The Indian coding and marking solutions market is poised for strong growth, driven by rapid industrialisation, the expansion of manufacturing and packaging sectors, and rising regulatory requirements for product traceability and safety. Anticipated to expand at a CAGR of 8.9% between FY 2024-25 and FY 2029-30, the market is expected to reach approximately US\$ 0.64 Billion by FY 2029-30. Government initiatives like 'Make in India' and improvements

in ease of doing business have further reinforced India's position as a competitive and attractive manufacturing hub. This has further bolstered the demand for advanced coding and marking technologies focussed on product authentication, brand protection, and regulatory compliance.

The market includes a range of technologies such as continuous inkjet (CIJ), thermal transfer overprinting (TTO), thermal inkjet

(TIJ), and laser coding, among others, with CIJ holding the largest market share due to its speed and cost-effectiveness. Major end-user industries include food and beverage, pharmaceuticals, electronics, chemicals, and automotive. The food and beverage sector particularly plays a key role, with growing regulatory mandates requiring detailed labelling, including ingredient lists, expiry dates, and nutritional information.

GROWTH DRIVERS

Scaling Food and Beverage Industry

The global food and beverages market is projected to grow from US\$ 6,962.47 Billion in 2024 to US\$ 7,400.31 Billion in 2025, reflecting strong momentum with a CAGR of 6.3%. This significant expansion is driven by rising disposable incomes, changing consumer lifestyles, and a growing population. The sector's rapid growth is increasing the demand for advanced coding and marking solutions to ensure product traceability, regulatory compliance, and consumer transparency.

Expanding Healthcare Industry

The healthcare sector in India is projected to reach US\$ 638 Billion by 2025 from US\$ 400 Billion in 2024. This market is expected to further expand at a CAGR of 8.0% from 2024 to 2032, reaching an estimated US\$ 194 Billion by 2032. This can be attributed to rising healthcare expenditure, and innovation in pharmaceuticals, diagnostics, and digital health. As the industry grows, so does the need for precise and compliant coding and marking systems to support product traceability, regulatory adherence, and patient safety.

(Source: <https://healthcareasiamagazine.com/healthcare/in-focus/indias-healthcare-market-reach-638b-2025>)

Growing Electronics Market

India's consumer electronics market is projected to reach around US\$ 118.4 Billion by FY 2024-25, with the online segment alone estimated at US\$ 30.6 Billion. This growth is driven by rising internet penetration, e-commerce adoption, and increasing demand for smartphones, televisions, and home appliances. The growth of this sector necessitates highly accurate coding and marking solutions to ensure authenticity, regulatory compliance, and supply chain visibility.

Expanding Chemical Industry

As of FY 2024-25, India's chemical industry is valued at approximately US\$ 260 Billion. Looking ahead, the sector is projected to reach US\$ 320-350 Billion by FY 2027-28, driven by strong domestic demand, increasing exports, and continued investments in specialty and green chemicals continuing its robust upward trajectory. The sector's expansion is accompanied by increasing demand for reliable coding and marking systems to meet stringent labelling standards and regulatory guidelines governing chemical identification and safety.

(Source: <https://www.investindia.gov.in/about>)

Scaling Construction Industry

The construction market in India is projected to grow by 11.2% annually, reaching ₹ 25.31 Trillion by 2025. The robust growth observed between 2020 and 2024, at a CAGR of 14.2%, is set to continue, making it the third-largest globally. In this space, customisable coding and marking solutions enable manufacturers to enhance brand visibility and meet specific labelling requirements, helping products stand out in an increasingly competitive market.

(Source: <https://constructiontimes.co.in/mission-2025-indian-construction-industry>)

Growing Automobile Industry

As of 2025, the Indian automotive market is estimated to be valued at US\$ 150-160 Billion. Coding and marking solutions offer the flexibility to customise labels and markings according to specific branding requirements. This helps manufacturers enhance their brand visibility and distinguish their products in the market.

GOVERNMENT INITIATIVES

Pradhan Mantri Awas Yojana – Urban (PMAY-U)

Pradhan Mantri Awas Yojana – Urban (PMAY-U) 2.0, launched on 1 September 2024, is a major initiative aimed at providing affordable housing to 1 Crore urban poor and middle-class families over the next five years. This is further backed by a substantial investment of ₹ 10 Lakh Crores (approximately US\$ 120 Billion). Under the scheme, financial assistance of up to ₹ 2.5 Lakh per unit is offered to eligible beneficiaries from the economically weaker sections (EWS), low-income group (LIG), and middle-income group (MIG). The programme gives special priority to vulnerable groups such as widows, single women, senior citizens, persons with disabilities, transgenders, Safai Karmis, street vendors, artisans, and Anganwadi workers. As of 27 January 2025, a total of 118.64 Lakh houses have been sanctioned, 112.5 Lakh have been grounded, and 90.25 Lakhs have been completed under PMAY-U since its inception. The scheme was extended until 31 December 2025, to ensure the completion of houses sanctioned up to 31 March 2022. In the Union Budget 2025, the government allocated ₹ 19,794 Crores for the original PMAY-U and ₹ 3,500 Crores for PMAY-U 2.0 for FY 2025-26. The mission also incorporates sub-schemes like Affordable Rental Housing Complexes (ARHCs) and the Global Housing Technology Challenge (GHTC-India), aimed at promoting sustainable, disaster-resilient, and innovative housing technologies. This large-scale housing initiative is expected to significantly boost demand for the coding and marking industry, as millions of new housing units require paints, protective coatings, waterproofing solutions, and various marking materials for construction, safety, and compliance. The adoption of advanced housing technologies under PMAY-U 2.0 will further drive innovation and the use of high-performance coatings, thereby expanding market opportunities for industry players.

Urban Infrastructure Development Fund (UIDF)

The UIDF continues to support urban infrastructure projects through loans and funding to urban local bodies (ULBs) for water supply, sanitation, urban transport, and solid waste management. The fund is managed by the Ministry of Housing and Urban Affairs (MoHUA) and has been instrumental in financing projects aligned with the Smart Cities Mission and AMRUT. Recent updates emphasise leveraging blended finance and private sector participation to scale urban infrastructure development. This sustained investment in urban infrastructure will significantly boost the demand for coding and marking solutions. As urban projects grow, so will the need for reliable coding and marking on construction materials, pipes, cables, and sanitation equipment to support traceability, quality control, and regulatory compliance.

National Pharmaceutical Policy

The National Pharmaceutical Policy FY 2023-24 aims to boost domestic manufacturing, reduce dependence on imports, and promote innovation in the pharmaceutical sector. Focus areas include strengthening bulk drug production, encouraging R&D, ensuring affordable access to medicines, and enhancing export competitiveness. The policy supports the development of Pharma 4.0 technologies and digital health integration. Government incentives and PLI schemes continue to drive growth in APIs, formulations, and medical devices. The growth of pharmaceutical manufacturing, coupled with the adoption of advanced automation and Pharma 4.0 technologies, is set to drive strong demand for high-quality coding and marking solutions. These solutions are essential for product identification, traceability, anti-counterfeiting, and regulatory compliance, especially as the industry moves towards greater digitalisation and exports.

Automotive Mission Plan (AMP) 2047

AMP 2047 is a long-term roadmap aimed at positioning India as a global hub for automotive manufacturing and exports by 2047, with a strong focus on electric mobility, advanced technology, and sustainability. The plan targets increasing vehicle production, fostering innovation in EVs and autonomous vehicles, and enhancing supply chain resilience. Government incentives, such as the PLI schemes for auto components, battery manufacturing, and R&D, are closely aligned with the objectives of AMP 2047. The mission emphasises skill development, infrastructure upgrades, and integration with global value chains. The rapid expansion and modernisation of India's automotive sector under AMP 2047 will significantly increase the demand for advanced coding and marking solutions. As vehicle and component production scales up, reliable product identification, traceability, and compliance with both domestic and international regulations become critical. The shift toward EVs, batteries, and high-tech components will require precise marking for safety, quality assurance, and anti-counterfeiting. Additionally, the integration of Industry 4.0 practices and automation in manufacturing will drive adoption of high-speed, digital, and eco-friendly coding technologies.

Income Tax Rates (FY 2025-26)

The Union Budget 2025-26 retained the existing income tax slabs and rates under the new tax regime introduced in 2020, with no revisions announced. The new tax regime offers concessional rates without exemptions/deductions; taxpayers can continue to choose between the old and new regimes. The highest marginal tax rate remains at 30% for income above ₹ 15 Lakhs under the new regime. Standard deduction, rebate limits, and surcharge rates remain unchanged. The government continues to emphasise ease of compliance and digitisation of tax administration. The stability and predictability in income tax rates, along with continued focus on digitisation and ease of compliance, foster a positive business environment. This encourages both domestic and foreign investments, leading to increased industrial activity and expansion across sectors such as FMCG, pharmaceuticals, automotive, and building materials, key markets for the coding and marking industry. With business expansion and increasing supply chain complexity, the need for streamlined product identification, traceability, and compliance becomes more critical than ever.

Boost to the Manufacturing Industry

The 2025 Union Budget continues to bolster the manufacturing sector through a range of targeted initiatives. It extends and expands the Production Linked Incentive (PLI) schemes across key sectors such as electronics, pharmaceuticals, textiles, and automobiles. Increased capital expenditure has been allocated for infrastructure development, with a focus on enhancing manufacturing clusters and industrial corridors. The budget reinforces the 'Make in India' initiative by promoting the adoption of advanced technologies, including Industry 4.0, AI, and green manufacturing practices. Support for MSMEs is strengthened through improved access to credit and export incentives. Additionally, there is a strong push for sustainable manufacturing, with specific incentives aimed at improving energy efficiency and encouraging the use of renewable energy.

(Source: <https://www.indiabudget.gov.in/>)

Make in India 2.0

Make in India 2.0 is an extension and evolution of the original initiative, aiming to turn India into a global manufacturing hub by focussing on advanced manufacturing technologies, innovation, and sustainability. It seeks to boost sectors like electronics, defense, automotive, and textiles. The programme's emphasis on the adoption of Industry 4.0 and AI-driven manufacturing will be a game changer for businesses, leading to increased demand for automation, digital solutions, and advanced coding and marking systems. This will likely trigger a surge in industries requiring high-quality traceability, packaging, and product identification solutions.

Pradhan Mantri Kisan SAMPADA Yojana (PMKSY)

PMKSY continues to focus on developing agro-processing infrastructure, enhancing cold chain facilities, and promoting value addition to reduce food wastage and boost farmers' income. The scheme supports creation of mega food parks, integrated cold chains, and agro-processing clusters. Recent budget allocations and policy push aim to scale up investments and promote private sector participation. The expansion of agro-processing infrastructure and cold chain facilities under PMKSY will significantly increase the demand for reliable coding and marking solutions. As food products move through processing, packaging, and distribution, clear and accurate product identification, batch coding, expiry dates, and traceability become essential for regulatory compliance, food safety, and supply chain efficiency.

India's GDP Per Capita

As per latest estimates for FY 2024-25, India's nominal GDP per capita is projected to be around US\$ 2,700 to US\$ 3,000. This growth can be attributed to robust economic recovery, increased manufacturing output, services sector expansion, and government reforms. India is expected to continue its trajectory as one of the fastest-growing major economies globally. Rising GDP per capita reflects growing consumer purchasing power and increased demand for a wide range of goods, from FMCG and packaged foods to electronics, pharmaceuticals, and construction materials. As industries scale up to meet this demand, the need for efficient supply chains, regulatory compliance, and product traceability becomes even more critical. This directly boosts demand for advanced coding and marking solutions across sectors such as food, beverage, healthcare, automotive, and building materials.

PROSPECTS OF THE INDIAN CODING AND MARKING SOLUTION INDUSTRY

India's coding and marking solution industry is poised for significant expansion, supported by the country's emergence as a potential global manufacturing hub. With a strong push from initiatives like Make in India and ongoing industrial development, the sector presents extensive opportunities for growth and innovation. One of the key drivers of this momentum is the growing emphasis on packaging, as brands increasingly rely on it to communicate essential

information related to product safety, hygiene, and quality.

The demand for coding and marking systems is rising sharply across sectors such as food and beverages, pharmaceuticals, and consumer goods. In the pharmaceutical industry, in particular, concerns around counterfeiting and the need for traceability have accelerated the adoption of advanced integration software and authentication

technologies. Moreover, stringent government regulations now require detailed and legible product information, including manufacturing dates, expiration dates, ingredient lists, and nutritional content especially for consumables. Coupled with improving living standards and the growing consumption of packaged goods, these factors are propelling the industry towards robust and sustained growth in the years ahead.

COMPANY OVERVIEW

Control Print Limited (referred to as 'Control Print' or 'the Company'), established in 1991 and headquartered in Mumbai, is a leading Indian manufacturer and provider of coding and marking solutions. With over three decades of experience, the Company offers a comprehensive range of printers and consumables used for product identification, traceability, and regulatory compliance. Its product portfolio includes Continuous InkJet Printers (CIJ), Thermal Inkjet Printers (TIJ), High-Resolution Printers, Thermal Transfer Overprinters (TTO), Hot Roll Coders, Laser Printers, and Large Character Printers, along with a robust range of consumables such as inks and solvents. It also manufactures advanced sachet packaging machines for the pharmaceutical, cosmetics, food, and chemical industries. QRiousCodes is a pioneering venture under Control Print Limited, specialising in QR code-

based track and trace solutions for a wide range of industries. As a subsidiary, QRiousCodes leverages Control Print's legacy of innovation to provide businesses with advanced tools for tracking products, assets, and processes throughout the supply chain. The platform integrates QR codes with cutting-edge data analytics and security algorithms, enabling real-time visibility, operational efficiency, and regulatory compliance for clients. Serving a wide array of industries ranging from FMCG, automotive, and agrochemicals to steel, textiles, and healthcare the Company has an installed base of over 21,000 printers. Control Print operates two key manufacturing hubs: a 30,000 sq. ft. facility in Nalagarh and a 70,000 sq. ft. factory in Guwahati, both equipped with production, repair, R&D, and testing infrastructure. It has a strong field presence with over 350 engineers covering 1,700+ cities/towns and 2,700+ pin codes across India.

Control Print holds a ~19% market share in India's coding and marking segment and is uniquely positioned as the only company in this space with in-house manufacturing under the 'Make in India' initiative.

Control Print is focussed on strategically expanding its consumables business, launching new products, and strengthening last-mile user acquisition. The Company is pursuing global growth and technology diversification through both organic innovation and strategic acquisitions. Its expanding global footprint includes subsidiaries and majority stakes in companies across The Netherlands, the UK, the UAE, and Italy, including Control Print B.V., Markprint BV, Codeology Group Limited, Control Print MEA FZE, and CP Italy S.r.l. With strong R&D capabilities, diversified markets, and consistent financial performance, Control Print continues to position itself as a key player in industrial printing and packaging solutions.

OPERATIONAL REVIEW

Control Print continues to strengthen its position in the coding and marking industry by offering a comprehensive portfolio of solutions, while advancing its capabilities through enhanced in-house software development. This strategic focus enables the Company to deliver customised, end-to-end solutions that address the unique requirements of its customers across various sectors. To further drive growth, Control Print has strengthened its lead generation teams, leading to enhanced customer engagement, improved conversion rates, and a positive impact on cash flow

performance. Additionally, the Company is well-positioned to benefit from emerging regulatory changes in sectors such as agrochemicals, healthcare, and plastic packaging, where new mandates are expected to significantly boost the demand for precise and compliant coding and marking solutions.

Control Print has undertaken a strategic shift in its sales approach by targeting larger, key accounts over smaller, transactional customers. This repositioning is designed to foster higher-quality and more sustainable revenue

streams, with an emphasis on long-term customer retention and aftermarket sales. While this transition has led to a short-term dip in printer volumes, the focus on high-value clients is expected to yield stronger recurring income and greater customer loyalty over time. To strengthen its technological capabilities and broaden its geographic footprint, Control Print has developed a dynamic corporate structure with a series of strategic acquisitions and subsidiary establishments aimed at strengthening its global footprint and technological capabilities. As the parent entity

based in India, the Company holds a 100% stake in several subsidiaries, including Control Print B.V. (Netherlands, acquired on 8 June, 2022), Control Print Packaging Private Limited (India, incorporated on 25 March 2023), CP Italy S.r.l. (Italy, incorporated on 23 February 2024), and Control Print MEA FZE (UAE, incorporated on 8 January 2025). The Company also holds 100% stake in Liberty Chemicals Private Limited and 80% stake in Innovative Codes (India) Private Limited (ICIPL), a company engaged in inkjet printing machines and services. Similarly, Control Print B.V. has raised its ownership in Markprint BV (Netherlands), known for its CMYK high-resolution printers, to 85% till 31 March 2025. Further, Control Print B.V. has acquired a 50.49% stake in Codeology Group Limited (UK) on 28 February 2024, expanding into

large character printers and end-of-line automation. This acquisition includes its subsidiaries Codeology Limited and Carton Handling Solutions Limited. Additionally, through CP Italy S.r.l., Control Print acquired the business assets of V-Shapes S.R.L. via auction on 29 March 2024, enhancing its capabilities in high-tech, single-dose sachet packaging. These moves are aimed at enhancing its presence in international markets and diversifying its product offerings. Further, the Company is developing QRiousCodes, a dedicated brand for the track and trace segment into the digital and packaging machinery sectors.

Control Print is also increasing its focus on international expansion through more strategic oversight of its overseas subsidiaries and targeted efforts to grow its

installed base. This global push is geared towards capturing a larger share of the international market and establishing a stronger brand presence beyond India. Consumables, particularly industrial inks and related products, represent the core of Control Print's recurring revenue, reinforcing the importance of aftermarket engagement. Other recurring income streams such as service, spares, and filters also contribute significantly, underscoring the Company's stable revenue model.

Control Print offers a broad spectrum of printer models, tailored to suit varied customer needs across industries. The Company's pricing strategy ensures accessibility for small businesses while catering to the advanced requirements of large-scale manufacturers.

PRODUCT DIVISION HIGHLIGHTS

Control Print's CIJ division remains the cornerstone of its profitability and market leadership in the coding and marking industry. The success of this division is driven by a strategic and targeted approach to CIJ product deployment, which continues to yield strong performance. The CIJ line serves a wide range of industrial applications and reinforces the Company's reputation as a frontrunner in the segment.

The TIJ, TTO, Laser, and Hi-Resolution (HiRes) divisions are experiencing rapid growth, supported by the increasing adoption of TIJ and HiRes printers. These technologies are being widely adopted across various industries, including dairy, beverages, bakery, frozen foods, ready-to-eat meals,

pharmaceuticals, packaging, plywood, and lubricants. The growth of this division has also opened up opportunities to replace older printing systems in the market. Notably, Control Print's laser business, especially its fibre laser technology, is gaining significant traction. Its rising adoption among existing laser printer users continues to strengthen the Company's position and influence in the marking and coding sector. Understanding the pivotal role of customer support, Control Print has invested in a robust service business with a team of service professionals strategically stationed across India. This expansive service network ensures operational continuity for clients and enhances customer satisfaction. The steady growth

in service revenue is a testament to the Company's commitment to after-sales excellence and has become a key contributor to overall profitability.

SWOT ANALYSIS

Strengths

Control Print distinguishes itself through its strong commitment to reliability and performance, consistently delivering coding and marking solutions that meet customer expectations. The Company capitalises on an advanced German technology to develop robust continuous inkjet printers, specifically adapted for India's unique industrial environments. Its ability to maintain ownership of core technologies through a mix of in-house innovation and strategic partnerships positions it as a self-reliant industry leader. Further strengthening its operations, Control Print invests heavily in employee training programmes, equipping its workforce with the skills needed for high-quality service delivery. The Company's strategic pricing model balances affordability with uncompromised quality, making its batch coding solutions both accessible and dependable. A well-established service and support network across India ensures high equipment uptime and responsive after-sales service, enhancing customer satisfaction.

Weaknesses

Despite its strengths, Control Print faces potential operational vulnerabilities due to its dependence on specific technologies or key suppliers, which could disrupt its supply chain. As the Company continues to scale, maintaining consistent service quality across an expanding customer base remains a key challenge. At the same time, staying competitive in a rapidly evolving technological landscape requires Control Print to continuously align its offerings with changing market needs, necessitating ongoing product upgrades and sustained investment in R&D.

Opportunities

Control Print is well-positioned to explore new geographical markets and enter emerging sectors, thereby diversifying its customer portfolio and revenue sources. By ramping up R&D, the Company can pioneer cutting-edge solutions tailored to future industry demands. Collaborations with technology providers and research institutions open avenues for joint innovation, allowing the Company to stay ahead of market trends and deliver smarter, more efficient coding and marking technologies.

Threats

Control Print faces growing competition from domestic and global players, leading to potential pricing pressures and erosion of market share. The pace of technological disruption is another pressing concern, as outdated products can quickly become obsolete in the face of new innovations. Regulatory changes, including shifts in labelling norms and environmental compliance pose additional challenges that could require swift operational adjustments. Moreover, macroeconomic uncertainties may dampen industrial spending, impacting demand for capital equipment such as coding and marking systems.

RISK MANAGEMENT

Effective risk management is essential for identifying and mitigating potential threats that could impact business operations and reputation. Demonstrating its strong commitment to safety, sustainability, and proactive governance, Control Print has established a dedicated Risk Management Committee under the oversight of the Board of Directors. This committee is tasked with ensuring the thorough implementation and continuous monitoring of the Company's risk management framework.

 Risk	 Impact	 Mitigation
High Competitiveness	<p>Operating in an oligopolistic industry, Control Print faces intense competition, which may affect its market share and profitability.</p>	<p>The Company mitigates this risk through strong R&D capabilities, enabling it to understand market dynamics and strategically align its offerings to remain competitive.</p>
Foreign Exchange Risks	<p>Exposure to currency fluctuations due to international operations poses a financial risk.</p>	<p>To minimise this exposure, the Company is expanding its global footprint through strategic partnerships and acquisitions, which facilitate easier market access and transaction efficiency.</p>

HUMAN RESOURCES

Control Print, with a workforce of 882 employees, places strong emphasis on continuous performance monitoring and skill enhancement. Regular training programmes are conducted to ensure employees stay updated with the latest technological advancements and industry practices. The Company prioritises employee well-being through comprehensive policies, proactive initiatives, and competitive remuneration packages.

Acknowledging the critical role of its human capital, Control Print fosters a positive work environment, offers attractive benefits, and ensures a culture of recognition and growth. The Company integrates practices that promote effective leadership, employee retention, and career development. This strategic alignment of business goals, organisational culture, and core values with its vision and mission reinforces Control Print's commitment to nurturing talent and driving performance.

INTERNAL CONTROL SYSTEMS

Control Print maintains a strong internal control framework through regular internal audits conducted across its factories, branches, head office, and functional areas. These audits are supported by a customised internal control system designed to ensure comprehensive coverage.

The Audit Committee, in collaboration with the Management team, reviews audit findings and oversees the implementation of corrective actions where needed. The adoption of the SAP system has further strengthened controls by minimising errors and enhancing transaction accuracy.

Robust internal controls are in place to safeguard assets and ensure proper authorisation, recording, and reporting of transactions. Additionally, the internal audit system spans all operations and locations, with continuous evaluations by the Audit Committee to identify opportunities for strengthening the control environment.

NOTES:

1. The Ministry of Corporate Affairs (‘MCA’), inter alia, vide its Circular No. 9/2024 dated 19 September 2024 (in continuation with the Circulars issued earlier in this regard) (‘MCA Circulars’), permitted the holding of the Annual General Meeting (‘AGM’) through Video Conferencing (VC) / Other Audio Visual Means (OAVM), without the physical presence of the Members till 30 September 2025. Further, the Securities and Exchange Board of India (‘SEBI’), vide its Circular dated 3 October, 2024 (in continuation with the Circulars issued earlier in this regard) (‘SEBI Circulars’), has provided relaxations from compliance with certain provisions of the Listing Regulations.
Accordingly, in compliance with the provisions of the Act and the Listing Regulations, the AGM of the Company is being held through VC/OAVM.
2. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013, setting out material facts concerning the above item of business to be transacted is annexed hereto.
3. Since this AGM is being held pursuant to the MCA Circulars through VC / OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form, Attendance Slip and the Route Map are not annexed to this Notice.
4. Institutional / Corporate Shareholders (i.e. other than individuals / HUF, NRI, etc.) are required to send a scanned copy (PDF/JPG Format) of its Board or governing body Resolution/Authorisation etc., authorising its representative to attend the AGM through VC / OAVM on its behalf and to vote through remote e-voting. The said Resolution/ Authorisation shall be sent to the Scrutiniser by email through its registered email address to mahesh@ngshah.com.
5. The Board of Directors, at its meeting held on 23 May 2025, has recommended a Final Dividend of ₹ 6 per equity share. Dividend if approved by the Members at this AGM will be directly credited to the bank accounts of the shareholders whose names appear, as at the Record Date, in the register of

Notice (Contd.)

members or the beneficiary position data furnished by the Depositories.

The dividend, if approved by the Members at this AGM, will be paid subject to deduction of income-tax at source ('TDS') as under:

- In respect of equity shares held in physical form, to all those Members whose names are on the Company's Register of Members after giving effect to valid transfers in respect of transfer requests lodged with the Company on or before the close of business hours on 04 July 2025.
 - In respect of equity shares held in electronic form, to all beneficial owners of the shares, as per details furnished by the Depositories for this purpose, as of the close of business hours on 04 July 2025.
6. TDS on Dividend: Dividend income is taxable in the hands of shareholders and the Company is required to deduct Tax at Source (TDS) from dividend paid to shareholders at the prescribed rates. Members holding shares in Demat form are hereby informed that bank registered with their respective Depository Participant with whom they maintain their account will be used by the Company for the payment of the dividend.
 7. As mandated by SEBI, effective 01 April 2019 except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed unless the securities are held in dematerialised mode with a depository. Accordingly, the Members of the Company were requested to open a demat account and submit physical securities to their DPs.
 8. Members who have not yet registered their email addresses are requested to register the same with their DPs in case the shares are held by them in electronic form and with the Company's Registrar and Share Transfer Agent (RTA) i.e. Bigshare Services Private Limited in case the shares are held by them in physical form.

vii. CS Mahesh Darji, a Practicing Company Secretary, Mumbai has been appointed by the Company as the Scrutiniser to scrutinise the Remote e-Voting process in a fair and transparent manner.

viii. The Scrutiniser shall, after scrutinising the votes, will, not later than Two (2) working days from the conclusion of the Meeting make a consolidated scrutiniser's report which shall be placed on the website of the Company, i.e. www.controlprint.com and on the website of RTA. The results shall simultaneously be communicated to the Stock Exchanges.

ix. **THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING ARE AS UNDER:**

- i. The voting period begins on **Thursday 17 July 2025 at 9.00 A.M. IST** and ends on **Sunday 20 July 2025 at 5.00 P.M. IST**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of July 14, 2025 may cast their vote electronically. The e-voting module shall be disabled by Bigshare for voting thereafter.
- ii. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

iii. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

iv. In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

			alternative/renewable sources may lead to higher operational costs and potential non-compliance with evolving energy regulations, impacting profitability and regulatory standing.	at its plant. This advanced system optimises energy usage, supports the transition to eco-friendly technologies, and contributes to lowering the Company’s dependence on conventional electricity sources.	
2	Workforce Health & Safety	Risk	The presence of heavy machinery and electrical hazards exposes employees to significant injury risks. Inadequate safety measures can lead to accidents, resulting in litigation, operational disruptions, and increased healthcare and insurance costs, thereby affecting financial and reputational stability.	To ensure employee safety and minimise risks from machinery and electrical hazards, the Company has adopted a proactive approach. It has implemented the ISO 45001:2018 Occupational Health and Safety Management System at its Guwahati and Nalagarh plants. Clear Standard Operating Procedures (SOPs) are in place for identifying and managing workplace hazards. Regular training sessions and mock drills — including fire safety, first aid, and emergency response — are conducted to keep employees well-prepared. These efforts aim to build a strong safety culture and reduce the likelihood of workplace incidents.	Negative. *There has been no negative impact in the reporting period of FY 2024-25.
3	Fuel Economy & Emissions in Use-phase	Opportunity	Increasing regulatory pressure and customer preference for energy-efficient, low-emission products create a market advantage for companies that innovate in this area. By designing printers with lower power consumption and reduced emissions, Control Print can enhance brand value, gain market share, and reduce exposure to future compliance costs.	N/A	Positive

4	Materials Sourcing	Risk	Dependence on critical raw materials with limited substitutes and concentrated geographic sourcing exposes Control Print to supply chain disruptions, input cost volatility, and geopolitical risks. These factors can impact production timelines, cost structure, and overall business continuity.	To mitigate the risk of supply chain disruptions and raw material shortages, the Company places weekly bulk orders to maintain adequate buffer stock. This approach ensures continuity in production by providing a reserve of essential materials, reducing dependence on just-in-time deliveries. By stabilising material availability, the Company is better positioned to manage input cost fluctuations and external supply challenges.	Negative. *There has been no negative impact in the reporting period of FY 2024-25.
5	Remanufacturing and Materials Efficiency	Opportunity	Implementing remanufacturing strategies allows Control Print to reduce raw material usage, lower production costs, and generate additional revenue streams by reselling refurbished printers. This approach supports sustainability goals, reduces waste, and can enhance customer loyalty and brand differentiation.	N/A	Positive

Governance, leadership and oversight

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements.

At the heart of our Company’s philosophy lies a deep-rooted commitment to sustainability and responsible growth. We continuously work to embed environmental and social responsibility into every aspect of our operations, ensuring that our business not only delivers value but also creates a lasting positive impact.

One of our key focus areas is the effective management of plastic waste. By partnering with specialised third-party agencies, we have implemented a robust system for the recycling of all forms of plastic waste, including packaging materials. This initiative supports our vision of fostering a circular economy and minimising our environmental footprint.

We have also made notable progress in advancing employee health and safety through the adoption of ISO 45001:2018 – the international standard for occupational health and safety management. This milestone reflects our unwavering commitment to creating a safe, secure, and supportive workplace environment.

While challenges persist in aligning rapid business growth with evolving ESG expectations, we remain resolute in our pursuit of ambitious targets such as achieving water neutrality, advancing energy efficiency, and promoting inclusive workplace practices. Our initiatives are guided by principles of transparency, ethical conduct, strong governance, and a dedication to continuous improvement.

Through these collective efforts, we aim not just to meet compliance standards but to become a force for sustainable transformation—leading by example and inspiring meaningful change beyond our own operations.

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No). If yes, provide details of the same.

The Company maintains a Code of Conduct for its Board and Senior Management, providing clear guidelines for identifying, avoiding, and disclosing any potential or actual conflicts of interest with the Company. As part of this process, all Board members and Senior Management are required to declare their interests in any external entities or firms annually.

To ensure compliance with applicable laws and internal policies, the Company obtains the necessary approvals before engaging in transactions with such entities or individuals. The composition of the Board committees reflects a strong emphasis on independence, with all committees meeting regulatory requirements for both size and independence. Only individuals without any conflicts of interest are appointed to serve on the Audit Committee and the Nomination and Remuneration Committees. Throughout the year, the Company did not enter into any material Related Party Transactions (RPTs) with entities connected to its Directors or senior executives.

⁵ The above calculations are in accordance with Part B, Attribute 9 of the Industry Standards Note (December 2024) on the Business Responsibility and Sustainability Report (BRSR) Core, jointly issued by ASSOCHAM, CII, and FICCI, pursuant to Regulation 34(2) of the SEBI (LODR) Regulations, 2015, and as per SEBI Circular No. SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122.

PRINCIPLE 2: Businesses should provide goods and services in a manner that is sustainable and safe

Essential Indicators

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2024-25	2023-24	Details of Improvements in environmental and social impacts
R&D	5.97%	9.68%	The Company’s R&D division is committed to enhancing manufacturing solutions through continuous innovation. As part of its efforts to optimise energy usage, the Company regularly assesses its manufacturing processes to minimise or eliminate effluent emissions. By integrating advanced technologies, the Company produces energy-efficient and affordable products with extended lifespans. Additionally, through collaborative initiatives with technology partners, the Company’s R&D engineers have successfully developed high-quality, durable products that demonstrate exceptional performance and sustainability.
Capex	0.84%	1.76%	

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, the Company has implemented procedures for sustainable sourcing, ensuring that materials are sourced from suppliers who prioritise sustainability and contribute positively to the environment and local communities. The Company also encourages sustainability within its supply chain by enforcing a rigorous Code of Conduct for all suppliers and vendors. This code mandates the maintenance of safe working conditions and strictly prohibits practices such as child labour, forced labour, and any human rights violations. By upholding these standards, the Company ensures that its commitment to ethical sourcing and sustainability is reflected throughout its supply chain operations.

- b. If yes, what percentage of inputs were sourced sustainably?

Approximately 90% of the inputs were sourced sustainably, reflecting the Company’s commitment to responsible sourcing and environmental stewardship.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

- i. Plastics (Including Packaging)

The Company has established a structured process for the reclamation and recycling of plastic waste, encompassing all packaging materials. In compliance with the Extended Producer Responsibility (EPR) framework, The Company collaborates with certified external agencies to ensure the environmentally sound collection, segregation, and recycling of plastic waste. This systematic approach guarantees that plastic materials are diverted from landfills and reintegrated into the production cycle, thereby mitigating ecological harm.

- ii. E-Waste

To address the responsible disposal of electronic waste, The Company has instituted a buyback and exchange program for end-of-life printers. Under this program, customers are permitted to return obsolete devices in exchange for new products. The Company subsequently collects the returned units, conducts methodical dismantling, and categorises the components in accordance with e-waste classification standards. These materials are then directed to authorised recycling facilities i.e. Ortech India Corporation to ensure compliance with EPR Framework, processing and resource recovery.

- iii. Hazardous Waste

The Company adheres to stringent protocols for the disposal of hazardous waste, including scrap materials and consumables classified under hazardous categories. All such waste is exclusively handled by registered and

“Annexure C” to the Board’s Report (Contd.)

licensed disposal entities approved by relevant regulatory authorities. This ensures full compliance with statutory requirements and safeguards against environmental contamination.

iv. Non-Hazardous Waste

For non-hazardous waste streams, the Company engages local regulatory bodies or authorised waste management service providers to facilitate proper disposal or recycling. This practice ensures alignment with municipal guidelines and promotes sustainable waste handling practices.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity’s activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

Yes, Extended Producer Responsibility (EPR) is applicable to The Company’s activities. The Company’s waste collection and management processes are fully aligned with the Extended Producer Responsibility (EPR) plan submitted to the relevant Pollution Control Boards. The Company ensures strict adherence to regulatory requirements, including proper documentation, authorised recycling partnerships, and periodic reporting to maintain compliance.

Comprehensive information regarding The Company’s EPR commitments, including waste collection mechanisms, recycling partnerships, and regulatory compliance, is publicly available at: <https://controlprint.com/about/extended-producer-responsibility/>.

Leadership Indicators

1. Has the entity conducted Life Cycle Perspective / Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

3. Accessibility of workplaces

Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard

The Company is committed to creating an inclusive and accessible work environment in line with the requirements of the Rights of Persons with Disabilities Act, 2016. To this end, the Company has ensured that its office premises are accessible to persons with disabilities, including employees and workers. These include the installation of ramps and elevators to facilitate barrier-free movement across all floors and workspaces. These measures have been implemented to support equal access and ease of mobility within the Company’s facilities.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

The Company is in the process of finalising a comprehensive Equal Opportunity Policy in alignment with the provisions of the Rights of Persons with Disabilities Act, 2016. The objective of this policy is to promote a workplace environment that ensures fair and equitable treatment for all individuals, free from discrimination, bias, or preferential practices.

The policy is intended to support a culture of respect and inclusion across all levels of the organisation, affirming the Company’s commitment to providing equal access to opportunities irrespective of an individual’s background, abilities, or personal characteristics. Through this initiative, the Company seeks to cultivate a professional setting where all employees are empowered to contribute meaningfully and are treated with dignity. The policy will be made available on the Company’s official communication channels upon formal adoption.

10. Health and Safety Management System:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

The Company has adopted the ISO 45001:2018 Occupational Health and Safety Management System at its facilities located in Guwahati and Nalagarh. In addition to the formal system, the Company regularly organises initiatives such as annual health check-ups, safety awareness sessions, celebration of Safety Day/Week, appointment of dedicated safety officers, and training programs on industrial safety to strengthen the safety culture across its operations.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company follows a structured approach to identifying and assessing both routine and non-routine work-related hazards. Standard Operating Procedures (SOPs) are in place, supported by regular employee training. Emergency preparedness is ensured through mock drills related to fire safety, first aid, and handling of critical situations. Emergency meeting points have been designated, and sirens installed at strategic locations to ensure swift action during any untoward incident.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, Workers are empowered to report unsafe conditions and are encouraged to step away from hazardous environments when necessary. Reporting mechanisms are available at each operational site, and all hazard reports are systematically reviewed by the management team. This framework ensures that risks are promptly identified and addressed in a transparent and responsible manner.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes, the Company provides access to non-occupational medical and healthcare services for its employees. All employees are covered under a Group Medical Insurance policy, which offers financial protection for a range of healthcare needs unrelated to occupational hazards. In addition, the Company conducts mandatory annual health check-ups to monitor and promote the overall well-being of its workforce.

11. Details of safety related incidents, in the following format:

“Annexure C” to the Board’s Report (Contd.)

12. Describe the measures taken by the entity to ensure a safe and healthy work place.

The Company is committed to maintaining a safe and healthy work environment by implementing proactive safety measures and promoting workplace hygiene. Efforts to support environmental sustainability are also integrated into workplace safety initiatives, including tree plantation drives to improve air quality and create a greener workspace.

To minimise occupational risks, all employees are required to follow strict safety protocols, including the mandatory use of Personal Protective Equipment (PPE). Additionally, the Company has developed detailed on-site and off-site emergency response plans to ensure preparedness for unexpected situations. Emergency exits are clearly marked across facilities to enable swift evacuation when necessary.

Safety awareness is reinforced through the implementation of Standard Operating Procedures (SOPs) for identifying workplace hazards. Regular mock drills are conducted to train employees in fire safety, first aid, and crisis management. These drills ensure that employees are familiar with emergency protocols and can respond effectively in case of an incident.

Key initiatives undertaken by the Company to uphold workplace safety include:

- i Ongoing safety training programs to equip employees with essential knowledge and skills.
- ii Regular risk assessments to identify and mitigate potential hazards.
- iii Implementation of continuous safety measures to improve workplace security and well-being.

By taking these measures, the Company fosters a work environment that prioritises both employee safety and overall workplace sustainability.

Working Conditions	100.00

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

During the reporting period, no safety-related incidents or concerns were reported. However, the Company remains deeply committed to ensuring a safe and healthy work environment. Efforts to maintain workplace safety include ongoing initiatives to promote cleanliness and environmental sustainability. For example, tree plantation programs are regularly organised, contributing to a greener, healthier environment.

The Company enforces strict safety protocols, which require all employees to use Personal Protective Equipment (PPE) to reduce occupational risks. In addition, comprehensive emergency response plans, both on-site and off-site, are in place to ensure the Company is prepared for unforeseen circumstances. Emergency exits are clearly marked across facilities to ensure efficient evacuation, should the need arise.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

6. **Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.**

No concerns were identified in this regard, and therefore, no corrective actions have been required or undertaken.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. **Describe the processes for identifying key stakeholder groups of the entity.**

The Company recognises that its stakeholders are integral to its success and understands the importance of meaningful collaboration to address their concerns and achieve optimal outcomes. To this end, the Company follows a structured approach to stakeholder engagement that emphasises both understanding and alignment with stakeholder needs.

The first step in this process is the identification of key internal and external stakeholders, followed by a detailed analysis of the impact each group has on the Company and vice versa. This thorough evaluation allows the Company to prioritise stakeholders based on their level of influence and relevance, ensuring that their expectations and concerns are fully understood.

To maintain strong, ongoing relationships, the Company engages with stakeholders regularly through a variety of communication channels. This continuous interaction not only fosters trust but also contributes to refining the Company’s strategy, enabling it to better address both present and future challenges.

“Annexure C” to the Board’s Report (Contd.)

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The process of stakeholder consultation involves multiple levels of engagement, each tailored to ensure appropriate input and collaboration on economic, environmental, and social matters. When consultation is directly handled by the relevant departments or teams, the feedback gathered from stakeholders is systematically communicated to the Board for further consideration and decision-making. Below is a breakdown of the various engagement levels utilised in such consultations:

- Inform:** At this stage, stakeholders are provided with clear, unbiased information about the project, issue, or potential solutions. While stakeholders gain insight into the matters at hand, no opportunity for input or decision-making is offered.
- Consult:** In this phase, feedback is actively sought from stakeholders on the provided information. This can range from simple methods such as online surveys to more in-depth feedback sessions. Stakeholder contributions are carefully considered as part of the decision-making process.
- Involve:** Stakeholders are directly engaged throughout the process to ensure that their concerns, needs, and preferences are fully understood and integrated into each stage. While the final decisions rest with the Company, stakeholder input plays a critical role in shaping the outcomes.
- Collaborate:** At this level, the Company partners with stakeholders in the decision-making process, jointly developing alternative solutions and collectively choosing the preferred option. The aim is to reach a consensus that reflects the interests and concerns of all parties involved.
- Empower:** In rare cases, stakeholders are granted the authority to make final decisions, typically through voting or referenda. This level of engagement is generally reserved for specific, highly significant matters, involving a small group representing key stakeholder interests.

“Annexure C” to the Board’s Report (Contd.)

Through these structured levels of consultation, the Company ensures that feedback from stakeholders is not only heard but actively influences the decision-making process, with the Board receiving comprehensive reports on the outcomes of such engagements.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, stakeholder consultation is utilised to support the identification and management of environmental, social, and governance (ESG) topics. At Control Print, stakeholder engagement is vital for effectively addressing key ESG issues, including governance oversight, employee empowerment and well-being, diversity and inclusion, and broader stakeholder engagement.

The Company places a strong emphasis on identifying and prioritising material issues that have a significant impact on both stakeholders and the business. Feedback from stakeholders is actively sought and integrated into the development of policies and strategic plans. This consultation ensures that stakeholder perspectives directly inform the Company’s approach to addressing ESG challenges and shaping its objectives in these areas. As a result, the inputs received from stakeholders are crucial in refining and enhancing the Company’s ESG initiatives, policies, and activities. However, no such instances were recorded during the reporting year.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/marginalised stakeholder groups.

The Company is committed to sustainable growth that prioritises environmental protection and community welfare. It recognises the importance of building strong relationships with all stakeholders—including vulnerable and marginalised groups—within a multi-stakeholder framework designed to ensure equitable and sustainable progress.

Engagement with stakeholders, particularly vulnerable and marginalised groups, is managed through dedicated departments in consultation with leadership and is overseen by the ESG Committee. The Company ensures that interactions are governed by its Code of Business Principles (CoBP) and Code Policies, which emphasise transparency, honesty, integrity, and openness. Concerns raised by vulnerable or marginalised groups, especially those related to environmental, social, or economic matters, are systematically gathered and shared with the Board’s ESG Committee for review. This process ensures that the Company’s strategies and actions are responsive to the needs of these groups.

Furthermore, the Company’s CSR Committee plays a pivotal role in reviewing and providing strategic guidance on corporate social responsibility initiatives. This committee ensures that the concerns of vulnerable stakeholders are incorporated into the Company’s CSR practices, aligning them with broader goals of community welfare and inclusion. Through these structured channels, the Company addresses the concerns of marginalised groups and takes concrete actions to support their well-being and empowerment. However, no such instances were recorded during the reporting year.

“Annexure C” to the Board’s Report (Contd.)

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Company has defined a framework for addressing human rights concerns that may arise from its operations. At the core of this framework is a dedicated grievance redressal mechanism, overseen by the Human Resources department, which serves as the first point of contact for any workplace-related issues. Complementing this is an open-door policy that allows employees to escalate matters directly to senior management without procedural barriers.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues

The Company has put in place comprehensive internal systems to address grievances relating to human rights in a fair and transparent manner. A dedicated grievance mechanism is available to both employees and workers, offering a structured channel to voice concerns without fear of bias or retaliation. To reinforce accountability, the Company also operates a Whistleblower Policy, which allows individuals including stakeholders, employees and workers to confidentially report unethical conduct, suspected fraud or breaches of its Code of Conduct to a designated officer. This policy not only protects the identity of the complainant but also ensures that every report is taken seriously and addressed appropriately. These mechanisms collectively reflect the Company’s commitment to fostering a respectful, safe and rights-based workplace environment.

6. Number of Complaints on the following made by employees and workers:

	FY 2024-25			FY 2023-24		
	Filed during the year	Pending resolution at the end of the year	Remarks	Filed during the year	Pending resolution at the end of the year	Remarks
Sexual harassment						
Discrimination at workplace						
Child Labour						
Forced Labour/ Involuntary Labour						
Wages						
Other Human Rights related issues						

No complaints relating to Sexual harassment, Discrimination at workplace, Child Labour, Forced Labour/ Involuntary Labour, Wages, and Other Human Rights related issues were received during the reporting periods.

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format⁷:

	FY 2024-25	FY 2023-24
Total Complaints reported under Sexual Harassment on of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)	0	0
Complaints on POSH as a % of female employees / workers	0.00	0.00
Complaints on POSH upheld	0	0

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases

The Company has instituted a comprehensive Prohibition of Sexual Harassment (POSH) Policy aimed at preventing and addressing any incidents of workplace harassment or discrimination. To ensure effective handling of such issues, an Internal Complaints Committee (ICC) has been established. This committee is responsible for investigating complaints related to harassment, with a strict policy of maintaining the confidentiality of the complainant throughout the process. Additionally, the Company’s Whistleblower Policy offers protection to individuals who report unethical behaviour, ensuring a safe and confidential environment for all employees to raise concerns without fear of retaliation.

9. Do human rights requirements form part of your business agreements and contracts?

Yes, human rights requirements are integrated into the Company’s business agreements and contracts, ensuring that all partners and stakeholders adhere to ethical standards that protect and promote human rights in all business dealings.

10. Assessments for the year:

	% of your plants and Offices that were assessed (by entity or statutory authorities or third parties)
Child Labour	100.00
Forced/involuntary labour	100.00
Sexual Harassment	100.00
Discrimination at workplace	100.00
Wages	100.00

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above.

No significant concerns or risks were identified from the assessments conducted in response to Question 10, and therefore, no corrective actions have been necessary or undertaken.

Leadership Indicators

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints

There have been no specific instances that necessitated the modification or introduction of a business process solely in response to human rights grievances or complaints. However, the Company has established accessible channels for employees to raise concerns. Employees can directly contact the HR department via email, ensuring that grievances are addressed in a timely and effective manner.

2. Details of the scope and coverage of any Human rights due-diligence conducted.

Human rights due diligence is a key element of the Company’s commitment to upholding ethical standards and ensuring sustainable operations. The Company conducts internal audits to assess and monitor compliance with human rights practices across its operations. These audits evaluate the Company’s adherence to human rights standards, helping to protect the rights and well-being of all employees and workers.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes, the Company is fully committed to ensuring accessibility and inclusivity in its premises, adhering to the provisions of the Rights of Persons with Disabilities Act, 2016. To facilitate ease of access for all individuals, including those with mobility impairments, the Company has equipped its facilities with essential features such as ramps and lifts. These measures are specifically designed to offer a comfortable experience for visitors with disabilities, ensuring that everyone can move freely and safely throughout the premises.

4. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	100.00
Discrimination at workplace	100.00
Child Labour	100.00
Forced Labour / Involuntary Labour	100.00
Wages	100.00

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

No significant concerns or risks have been identified from the assessments conducted in response to Question 4, and as such, no corrective actions have been necessary or undertaken.

There has been no independent assessment, evaluation, or assurance undertaken by an external agency to review the Company’s operations, performance, or compliance with applicable standards or regulations.

5. **Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.**

At the Guwahati unit, a Sewage Treatment Plant (STP) with a capacity of 7.5 kiloliters per day (KLD) and a 20,000-liter Rainwater Harvesting Tank have been installed as part of the Company’s commitment to responsible water management. While the unit has not yet achieved Zero Liquid Discharge (ZLD), the STP follows a structured treatment process:

1. **Raw Sewage Collection:**

Incoming sewage is first directed into a collection tank designed to trap coarse and floating solids. This preliminary stage prevents clogging of pumps and infrastructure, ensuring smooth operation of subsequent treatment phases. It also minimises the risk of sludge buildup at disposal sites in cases where only primary treatment is performed.

2. **Biological Treatment:**

The collected sewage is then processed in a biological tank, where microbial activity forms the core of the treatment process. Microorganisms such as bacteria degrade organic matter, while protozoa help maintain balance in microbial populations. To sustain microbial efficiency, nutrients such as DAP and urea are introduced every three days.

3. **Clarification:**

The partially treated wastewater moves into a clarifier tank. This component allows solid impurities to settle, forming a sludge layer at the bottom. A mechanical scraper collects the settled sludge, while floating debris (scum) is separated from the surface, resulting in clarified water suitable for further treatment.

4. **Filtration:**

The clarified water undergoes advanced filtration using an iron filter and a carbon filter. Chlorine dosing is performed before filtration to enhance efficiency. The iron filter removes iron content, while the carbon filter, using granular activated carbon (GAC), adsorbs organic contaminants and residual chemicals.

At the Nalagarh facility, while ZLD is yet to be fully adopted, a functional STP has been set up with the following components:

i **Collection Tank:**

Wastewater is first gathered in a holding tank, enabling temporary storage and stabilisation.

ii **Biological Treatment:**

This stage involves aeration using twin lobe blowers and diffusers that introduce oxygen from the base of the tank. The biological degradation process is supported either by synthetic media or complete mixing systems, reducing the organic load. The resulting mixture flows into a secondary clarifier, where solids settle at the bottom. This sludge is partly recycled to maintain optimal MLSS levels, while the excess is dried and repurposed as manure. The clarified effluent is then transferred for tertiary treatment.

iii **Tertiary Treatment:**

In the final stage, the treated water passes through a dual media filter system containing sand and carbon. This ensures further removal of fine suspended and dissolved impurities. The fully treated effluent is reused for landscaping and plantation activities within the premises.

Others – please specify	-	0.00	0.00

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, independent assessments have been conducted. The Guwahati Unit underwent evaluation by ABNS Scientific Services, while the Nalagarh Unit was assessed by Eco Paryavaran Laboratories and Consultants Pvt. Ltd.

** Control Print is in coding and marking Industry wherein we are the manufacturer of printers and consumables. Printer manufacturing carried out by outsourcing major components in printers. Final assembly & testing of printers are carried out at our plants which is non-polluting process. We outsource major chemicals and other components of the consumables. The final formulation is carried out at our plant as per requirements. There is no significant air emission in manufacturing process. Those arising from the operations of diesel generator sets during power outages is negligible, as generator operates only instant of power failure which is rare. Also, we have necessary consent under the Air (prevention and control pollution) Act for business operations wherever required.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format¹⁵:

8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

At present, the Company has not undertaken a specific project solely focused on reducing greenhouse gas emissions. However, in alignment with its commitment to environmental responsibility, the Company continues to implement various sustainability initiatives. These include rainwater harvesting systems to conserve water resources, operational sewage treatment plants (STPs) to manage wastewater responsibly, and structured programs for recycling plastic waste. While not directly targeting GHG reduction, these measures contribute meaningfully to the Company’s broader environmental sustainability goals.

Total	5.50	5.00

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment or third-party evaluation has been conducted to review the Company’s operations, performance, or compliance with regulatory standards.

The Company follows a structured and responsible waste management process involving various specialised agencies for the collection and disposal of different waste types. All plastic waste is systematically recycled, avoiding landfill contribution. E-waste is managed through entities authorised by the Central Pollution Control Board (CPCB), while hazardous waste is handled in accordance with guidelines set by the State Pollution Control Board (SPCB). Non-hazardous waste is disposed of through the local Municipal Board. Additionally, the Company has implemented in-house composting for canteen waste using a dedicated composting machine, reinforcing its commitment to sustainable and eco-friendly practices.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes

At both the Guwahati and Nalagarh facilities, the Company has implemented structured waste management practices to ensure responsible disposal of hazardous and non-hazardous materials. Hazardous waste—including used oil, grease, residual ink, paints, ink-contaminated rags, gloves, empty chemical containers, and ink drums—is collected and safely stored in designated hazardous waste yards. These materials are clearly labeled and handled using appropriate personal protective equipment (PPE) before being transferred to authorised disposal agencies, in full compliance with regulatory norms.

For non-hazardous waste such as worn-out PPE, process residues, packaging materials, and discarded mechanical parts, the Company utilises a separate scrap yard for temporary storage. These materials are then routed through certified scrap dealers for responsible disposal or recycling.

To minimise the use of toxic and hazardous chemicals in its operations, the Company continually evaluates and refines its processes. The focus remains on adopting safer alternatives and reducing chemical dependence wherever feasible, thereby promoting a safer workplace and minimising environmental impact.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Types of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any
--------	--------------------------------	---------------------	--

The Company does not have any operations or offices located in ecologically sensitive areas.

“Annexure C” to the Board’s Report (Contd.)

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web link
-----------------------------------	----------------------	------	---	--	-------------------

As per the Ministry of Environment, Forest & Climate Change (MoEF) guidelines, the nature of the Company’s industrial operations does not require environmental clearance or the conduct of an Environmental Impact Assessment (EIA).

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, and Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Serial Number	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective taken, if any action
---------------	---	---------------------------------------	---	---------------------------------

The Company remains fully compliant with all applicable environmental laws, regulations, and guidelines in India, including the Water (Prevention and Control of Pollution) Act, the Air (Prevention and Control of Pollution) Act, and the Environment (Protection) Act, along with the rules framed thereunder. There have been no instances of non-compliance, penalties, or regulatory actions during the reporting period.

Leadership Indicators

1. Water withdrawal, consumption and discharge in areas of water stress (in kilolitres):

For each facility / plant located in areas of water stress, provide the following information:

- (i) Name of the area
(ii) Nature of operations

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment, evaluation, or assurance has been conducted by an external agency to date in relation to the Company’s operations, performance, or regulatory compliance.

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 3 emissions (Break-up of the GHG into CO₂, CH₄, N₂O, HFCs, PFCs, SF₆, NF₃, if available)	<i>Metric tonnes of CO₂ equivalent</i>	3.46	3.10
Total Scope 3 emissions per rupee of turnover	<i>Metric tonnes of CO₂ Equivalent/Rupee</i>	0.00000000090	0.00000000090
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	<i>Metric tonnes of CO₂ Equivalent/ Unit of Product</i>	0.0051	0.0047

Scope 3 emissions are calculated basis the data for waste generation only

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment, evaluation, or assurance has been conducted by an external agency to date in relation to the Company’s operations, performance, or regulatory compliance.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

The Company does not have any operations or offices located in ecologically sensitive areas.

“Annexure C” to the Board’s Report (Contd.)

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1	Waste Segregation and Compliance	Dedicated storage areas have been created for different categories of waste, which are disposed of through authorised recyclers in accordance with Extended Producer Responsibility (EPR) and Plastic Waste Management (PWM) regulations. Waste is primarily classified into Dry and Wet categories, and further subdivided into types such as Electronic, Plastic, Chemical, and Metal.	Improved waste management efficiency and environmental compliance have been achieved. Different types of waste are managed separately, minimising environmental risks. Authorised disposal ensures adherence to legal and sustainable recycling practices
2	Waste Minimisation Training	Multiple awareness sessions have been organised to educate employees on the importance of waste reduction at the source, segregation practices, and the consequences of improper waste handling.	These training sessions have led to better-informed employees and enhanced waste segregation practices. As a result, the accuracy and effectiveness of waste disposal have significantly improved.
3	Installation of Sewage Treatment plant	The Company has implemented a Sewage Treatment Plant (STP) designed to recycle and reuse wastewater. The system involves anaerobic and aerobic treatment processes that purify wastewater for non-potable reuse, such as in landscaping and industrial cooling.	The STP has yielded environmental and operational benefits by reducing the demand for freshwater, lowering water consumption costs, and promoting sustainable water reuse practices.
4	Environmental Training and SOPs	Environmental awareness and waste management training sessions have been regularly conducted. Standard Operating Procedures (SOPs) are maintained to guide employees in their day-to-day waste handling responsibilities.	These initiatives have resulted in enhanced employee awareness, reduced training gaps, optimised resource use, and minimised waste generation through better internal practices.
5	Green Cover Enhancement through Plantations	On occasions like World Environment Day, the Company promotes environmental awareness through tree plantation drives and green initiatives. These activities are part of ongoing efforts to improve the ecological balance.	Plantation drives have contributed to a greener, healthier work environment and have improved the visual and ecological quality of the workplace through increased biodiversity and beautification.
6	Water Conservation Measures	Several initiatives have been introduced to promote water efficiency, including repairing leaks, installing water level sensors, using pressmatic taps, implementing rainwater harvesting systems, and recycling water through STP.	These measures have significantly enhanced water conservation. Outcomes include minimised water wastage, optimised water use, and reduced dependence on freshwater sources, supporting long-term sustainability.
7	Energy Efficiency Improvements	The Company has replaced traditional lighting with energy-efficient LED lights and installed automated timers for street lighting to reduce energy consumption.	These actions have improved overall energy efficiency across operations and contributed to lower electricity consumption and reduced environmental impact.

“Annexure C” to the Board’s Report (Contd.)

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

The Company has implemented a comprehensive Business Continuity and Disaster Management Plan. This includes a detailed data backup system to ensure critical information can be restored in the event of a disaster. A thorough risk assessment process is conducted to identify and address potential hazards. Seven lightning arresters have been installed to protect against electrical surges, and various fire extinguishers are placed according to Fire Office guidelines. Water sprinklers are installed in necessary areas to help manage temperatures during emergencies. Regular training sessions are held to ensure employees are well-equipped to handle disaster situations.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

At present, the Company does not assess the environmental impact of its value chain partners. However, in the future, the Company is committed to identifying and managing any potential environmental risks that may arise. We will take the necessary steps to implement mitigation or adaptation strategies where needed. Our objective is to consistently improve sustainability efforts across all areas of our operations, reducing environmental impact throughout the entire value chain.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

The Company has not yet conducted formal assessments of value chain partners for environmental impacts. However, it is committed to proactively evaluating potential environmental risks moving forward and will take necessary steps to implement suitable mitigation or adaptation measures.

“Annexure C” to the Board’s Report (Contd.)

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

While the Company does not engage in the provision of essential services as defined under applicable law, it has instituted mechanisms to ensure timely and effective communication with consumers regarding any potential service disruptions or discontinuations. These include regular outreach through email and telephonic communication conducted by the Sales and Service Teams. All material updates are published on the Company’s official website to promote transparency and ease of access. The Company also ensures adherence to all statutory requirements pertaining to the disclosure of information related to service continuity. Such measures are implemented with the objective of maintaining consumer awareness and preserving confidence in the Company’s offerings.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

The Company provides product information on its packaging with a view to ensuring that end consumers are well-informed about the nature and characteristics of the products. Furthermore, the Company, through its internal sales and client engagement teams, undertakes periodic customer satisfaction surveys across its key operational regions. These surveys are aimed at evaluating customer experience in relation to the Company’s principal products and services, and the insights derived therefrom are utilised to inform continuous improvements in quality and service delivery.

UN SUSTAINABLE DEVELOPMENT GOALS ALIGNMENT

SDG 3: GOOD HEALTH AND WELL-BEING

The Company organised a cricket tournament at its Guwahati factory to promote teamwork, employee engagement, and workplace camaraderie. The event successfully fostered collaboration and strengthened bonds beyond the office environment.

The Company has implemented the ISO 45001:2018 Occupational Health and Safety system at its Guwahati and Nalagarh plant

SDG 4: QUALITY EDUCATION

Through its CSR strategy, the Company is committed to enhancing education and employability by supporting initiatives such as Avaan Academy, where ₹ 25 Lakhs was spent to improve vocational skills and nurture youth innovation.

SDG 5: GENDER EQUALITY

To foster a safe and inclusive work environment, an Internal Complaints Committee (ICC) has been constituted to handle matters related to discrimination and harassment. The identity of the complainant is kept strictly confidential during investigations, and the ICC ensures adherence to the principles of natural justice throughout the process.

SDG 6: CLEAN WATER AND SANITATION

At its Guwahati and Nalagarh units, the Company has implemented structured sewage treatment systems as part of its commitment to responsible water management, although Zero Liquid Discharge (ZLD) is yet to be achieved at both sites. The Guwahati facility features a 7.5 KLD Sewage Treatment Plant (STP) and a 20,000-liter Rainwater Harvesting Tank, employing a multi-stage process including raw sewage collection, biological treatment using microbial activity, clarification, and advanced filtration with iron and carbon filters. Similarly, the Nalagarh unit operates an STP with stages such as collection, biological treatment through aeration and microbial degradation, and tertiary treatment via sand and carbon filters. Treated effluent at Nalagarh is repurposed for landscaping and plantation, while sludge is reused as manure, reflecting a circular approach to resource use.

SDG 7: AFFORDABLE AND CLEAN ENERGY

The Company has enhanced energy efficiency by replacing conventional lighting with energy-efficient LED lights and installing automated timers for street lighting. These measures have led to reduced electricity consumption and a lower environmental footprint across its operations.

“Annexure C” to the Board’s Report (Contd.)

SDG 8: DECENT WORK AND ECONOMIC GROWTH

The Company organised a comprehensive hands-on training session on its Continuous Inkjet (CIJ) printer for the Operators, Supervisors, and Engineers of Svarn Group at their Faridabad, Haryana facility. Conducted on 20 March 2025, the session aimed to strengthen participants’ technical know-how, ensure consistent printer performance, and enhance the overall efficiency of coding and marking processes within the production line.

The Company conducted a training and outbound program for its branch finance and admin teams at its Nalagarh facility, enhancing their understanding of operations and products. The initiative also promoted team bonding through immersive learning and scenic exploration.

SDG 9: INDUSTRY, INNOVATION AND INFRASTRUCTURE

The Company participated in INDIAWOOD 2025, where it showcased its Thermal Inkjet and High-Resolution Demand printers, along with advanced track & trace solutions designed for the woodworking industry. The event provided an excellent platform for engaging with visitors, exchanging valuable insights, and demonstrating how the Company’s solutions can enhance marking precision, traceability, and regulatory compliance.

The Company participated in INDPLAS 2025, showcasing its innovative coding and marking solutions for the plastics industry. The event facilitated valuable engagements with industry leaders and potential clients, reinforcing the Company’s presence in the manufacturing sector.

The Company participated in Odisha Plast 2024, showcasing its specialised coding and marking solutions for the plastics sector. The exhibition offered a platform to highlight innovations that enhance traceability, compliance, and packaging aesthetics.

The Company participated in PackPlus 2024, India’s leading packaging, converting, and supply chain exhibition, to showcase its advanced coding and marking solutions tailored for the packaging industry. The event offered opportunities for expert discussions and real-time demonstrations of industrial applications.

The Company participated in the Tube & Pipe Fair 2024, showcasing its specialised coding and marking solutions tailored for the tube and pipe sector. The event provided a platform to engage with industry stakeholders and demonstrate technology designed for durability and industrial performance.

The Company showcased its advanced coding and marking solutions at the PackVision Expo in Pune, engaging with packaging industry professionals and highlighting innovations that enhance traceability and packaging efficiency. The event drew strong interest from stakeholders across the sector.

SDG 11: SUSTAINABLE CITIES AND COMMUNITIES

The Company’s CSR committee is dedicated to promoting rural development and laying the groundwork for a developed India by providing basic infrastructure and renewable energy sources to rural areas.

SDG 12: RESPONSIBLE CONSUMPTION AND PRODUCTION

The Company shows its commitment to caring for the long-term economic, social, and environmental health of the Company and the communities in which it carries out its activities. The Company has obtained the following certifications:

- Plastic EPR Certificate
- EPR Certificate- Guwahati Plant
- EPR Certificate for Plastic- Guwahati Plant- Brand Owner

The Company is the Manufacturer and Importer as per E-waste (Management) Rules 2016, hereby declares the EPR plan for the extended producer responsibility pan India.

“Annexure C” to the Board’s Report (Contd.)

SDG 13: CLIMATE CHANGE

The Company is undertaking two key projects aimed at reducing Greenhouse Gas (GHG) emissions at its Guwahati and Nalagarh plants. As part of its broader environmental responsibility, the Company has implemented comprehensive waste management strategies. Designated areas, such as the PESO-compliant store and isolated storage zones, are allocated for waste storage, while employees are trained extensively on proper disposal protocols, including the use of Personal Protective Equipment (PPE) to ensure safety. The waste distribution mechanism includes collection by authorized external agencies: all plastic waste is recycled, e-waste is managed by a CPEC-authorized party, hazardous waste by an SPCB-authorized agency, and non-hazardous waste by a locally authorised vendor.

Additionally, food and pantry waste are composted on-site using an in-house composting machine.

SDG 17: PARTNERSHIPS FOR THE GOALS

The Company is a member of following trade, associations and chambers:

- The Federation of Indian Chambers of Commerce & Industry (FICCI)
- Bombay Chamber of Commerce
- Federation of Industries & Commerce of North Eastern Region (FINER), Guwahati
- Nalgarah Industries Association
- BN Industries Association.

Other Useful Information for Shareholders

ECS Facility

The Company provides facility of "Electronic Clearing Service" (ECS) for payment of dividend to its shareholders. ECS facility assists in quick remittance of dividend without possible loss/delay in postal transit. Pursuant to SEBI circular dated November 3, 2021, the Company had in the year 2021-2022 sent a letter through its RTA along with KYC form to the shareholders holding shares in Physical mode requesting them to submit/update their PAN and Bank Account details for updation of their data in Company records.

Encash Dividend Promptly

The shareholders are advised to encash their dividend promptly to avoid hassles of revalidation or losing right to claim dividend owing to transfer of unclaimed dividends beyond seven years to the Investor Education and Protection Fund.

Share Transfer System:

As mandated by SEBI, effective 01 April 2019 except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed unless the securities are held in dematerialised mode with a depository. Accordingly, the Members of the Company were requested to open a demat account and submit physical securities to their DPs.

INDEPENDENT AUDITORS' CERTIFICATE ON COMPLIANCE WITH THE CORPORATE GOVERNANCE REQUIREMENTS UNDER SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015

To The Members of Control Print Limited

1. This certificate is issued in accordance with the terms of our engagement letter dated 03-Apr-2025.
2. We have examined the compliance of the conditions of corporate governance by Control Print Limited, ("the Company") for the year ended March 31, 2025, as stipulated under Regulations 17 to 27, clauses (b) to (i) of Regulation 46(2), and paragraphs C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") as amended from time to time ("Listing Regulations") pursuant to the Listing Agreement of the Company with Stock Exchanges.

Management's Responsibility

3. The Compliance of the conditions of corporate governance as stipulated under the listing regulations is the responsibility of the Company's Management including the preparation and maintenance of all the relevant records and documents. This responsibility includes the design, implementation and maintenance of internal control and procedures to ensure compliance with the conditions of corporate governance as stipulated in the Listing Regulations.

Auditor's Responsibility

4. Our examination was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance with the conditions of the corporate governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
5. Pursuant to the requirements of the Listing Regulations, it is our responsibility to provide a reasonable assurance whether the Company has complied with the conditions of Corporate Governance as stipulated in Listing Regulations for the year ended 31 March 2025.
6. We conducted our examination of the above corporate governance compliance by the Company in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) and Guidance Note on Certification of Corporate Governance both issued by the Institute of the Chartered Accountants of India (the "ICAI"), in so far as applicable for the purpose of this certificate. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.
7. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

Opinion

In our opinion and to the best of our information, based on the records, documents, books and other information furnished to us during the aforesaid audit by the Company, its officers and agents, we confirm that the Company has complied with the corporate governance as stipulated in the listing regulation to the extent applicable to the Company, during the aforesaid period under audit.

We state that such compliance is neither an assurance as to the future viability of the Company nor of the efficiency or effectiveness with which the Management has conducted the affairs of the Company.

Independent Auditor's Report

TO THE MEMBERS OF CONTROL PRINT LIMITED

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying Standalone Financial Statements of **Control Print Limited** ("the Company"), which comprise the Standalone Balance Sheet as at March 31, 2025, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Cash Flow Statement for the year ended on that date and notes to financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 (the 'Act'), in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, total comprehensive income (comprising of profit and other comprehensive income), the changes in equity and its cash flow for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Response to Key Audit Matter
Trade Receivables (Note no. 13) Trade Receivables Rs. 8,812.54 Lakhs (net of provisioning of Rs. 289.54 Lakhs) part of the current financial assets of the company as at 31 March 25. INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flow of the Company in accordance with the accounting principles generally accepted in India, including the

Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a

Independent Auditor's Report (Contd.)

material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for explaining our opinion on whether the Company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

We did not audit the financial statements of Colombo (Sri Lanka) Branch included in the standalone financial statements whose financial statements reflect total assets of Rs. 170.75 Lakhs as at 31st March 2025 and total revenues of Rs. 125.25 Lakhs, total net loss after tax Rs. 18.68 Lakhs, total comprehensive loss of Rs. 18.68 Lakhs for the year ended on that date, and net cash outflow of Rs. 1.18 Lakhs for the year ended 31st March 2025 as considered in the audited financial statements. The financial statements of above branch have been audited by another independent auditor in accordance with the regulations of that country, whose report has been furnished to us, and our opinion on the standalone financial statements, to the extent it has been derived from such audited financial statements is based solely on the report of such other auditor.

Our opinion is not modified in respect of this matter.

Independent Auditor's Report (Contd.)

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the Companies (Auditors' Report) Order, 2020 (the "Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the **Annexure 'A'** statement on the matters specified in the paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b. In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The reports on the accounts of the branch office of the Company audited under Section 143(8) of the Act by branch auditors have been sent to us and have been properly dealt with by us in preparing this report.
 - d. The Balance Sheet, Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Cash Flow Statement dealt with in this Report are in agreement with the books of accounts.
 - e. In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.
 - f. On the basis of the written representations received from the Directors as on March 31, 2025, taken on record by the Board of Directors, none of the Directors are disqualified as on March 31, 2025, from being appointed as a director in terms of Section 164(2) of the Act.
 - g. With respect to the adequacy of the internal financial controls with respect to these standalone financial statements and the operating effectiveness of such controls, refer to our separate report in **Annexure 'B'**.
 - h. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its Directors during the year is in accordance with the provisions of section 197 of the Act.

- i. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a. The Company has disclosed the impact of pending litigation as at March 31, 2025 on its financial position in its standalone financial statements – Refer Note 47 (C) to the standalone financial statements.
 - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - c. There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2025.
 - d. (i) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
 - (ii) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the

Independent Auditor's Report (Contd.)

understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.

- (iii) Based on such audit procedures we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material misstatement.

- e. The Final Dividend proposed in the previous year, declared and paid by the Company during the year and the Interim Dividend declared and paid by the Company during the year is in compliance with section 123 of the Companies Act, 2013.
- f. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the year ended March 31, 2025, which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the same has been preserved by the Company for the year ended March 31, 2025.

Annexure- 'A' to the Independent Auditor's Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company is maintaining proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
- (B) The Company is maintaining proper records showing full particulars of intangible assets.
- (b) The Property, Plant and Equipment are physically verified by the Management in a phased programmed manner to cover all the items/locations over a period of 3 years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) The title deeds of all the immovable properties included in property, plant and equipment (other than properties where the company is the lessee, and the lease agreements are duly executed in favour of the lessee) disclosed in the Note No. 2 of the financial statements are held in the name of the company.
- (d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a registered valuer or specifying the amount of change if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or intangible assets does not arise.
- (e) Based on the information and explanations furnished to us and on the basis of our examination of the records of the Company,
- there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ('THE ACT')

We have audited the internal financial controls with reference to standalone financial statements of Control Print Limited ("the Company") as of March 31, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR THE INTERNAL FINANCIAL CONTROLS

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with respect to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with respect to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH RESPECT TO THESE STANDALONE FINANCIAL STATEMENTS

A company's internal financial with respect to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with respect to standalone financial statements includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. Provide reasonable assurance that the transactions are recorded as necessary to permit preparation of Financial Statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of Management and Directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure- 'B' to the Independent Auditor's Report (Contd.)

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH RESPECT TO STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with respect to standalone financial statements, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control with respect to standalone financial statements to future periods are subject to the risk that the internal financial control with respect to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material aspects, an adequate internal financial controls with respect to standalone financial statements and such internal financial controls with respect to standalone financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statements

For the year ended 31 March 2025

1. STATEMENT OF MATERIAL ACCOUNTING POLICIES

A) Company Information: Control Print Limited is a public company domiciled and incorporated in India and its shares are listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE). The registered office of the Company is situated at C-106, Hind Saurashtra Industrial Estate, Andheri Kurla Road, Marol Naka, Andheri (East), Mumbai, Maharashtra, 400059.

The Company is engaged in the manufacturing and supply of Coding and Marking Machines, along with associated consumables, spare parts, and after-sales services. It also supplies Packaging Machines and operates a separate business segment that provides comprehensive Track & Trace solutions. Additionally, the Company manufactures and supplies mask products targeted at the safety and hygiene segment.

It has a nationwide service network to support its customers across the country. The Company operates manufacturing facilities in the states of Himachal Pradesh and Assam, as well as an overseas branch located in Colombo, Sri Lanka.

The Financial Statements for the year ended 31 March 2025 were approved and adopted by the Board on May 23, 2025.

B) Material Accounting Policies

(i) Statement of compliance with Ind AS

The financial statements have been prepared in accordance with Indian Accounting Standard (Ind AS) as notified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standard) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

(ii) Basis of Preparation and Presentation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on accrual basis except for certain financial instruments which are measured at fair values. All assets and liabilities have been classified as current or non-current based on normal operating cycle of business activities of the Company, which is 12 months.

(iii) Use of estimates

The preparation of the financial statements requires Management to make judgements, estimates and assumptions that affect the

reported amounts of revenues, expenses, assets and liabilities and accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(iv) Property, Plant and Equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses, if any. Freehold land is not depreciated. The cost of an item of property, plant and equipment comprises its cost of purchase and any attributable cost of bringing the asset to its working condition for its intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of the profit and loss.

(v) Capital work in progress

Property, plant and equipment under construction as well as Coding and Marking machines held exclusively for Rental prior to dispatch to Customer's location are disclosed as capital work in progress.

(vi) Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives

Notes to the Standalone Financial Statements (Contd.)

that are acquired separately are carried at cost less accumulated impairment losses.

Estimated useful lives of the Intangible assets are as follows:

Computer Software	6 Years
Technical Know How	6 Years

There are no intangible assets having indefinite useful life.

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

(vii) Leases

As a Lessee

At inception of a contract, the Company assesses whether a contract is, or contain a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset.
- The Company has the right to substantially all of the economic benefits from the use of the asset throughout the period of use; and
- The Company has the right to direct the use of the asset. The Company has this right when it has the decision making rights that are most relevant to changing how and for what purposes the asset is used.

At the date of commencement of lease, the Company recognises a Right-of-use asset ("ROU") and a corresponding liability for all lease arrangements in which it is a lessee, except for leases with the term of twelve months or less (short term leases) and low value leases. For short term and low value leases, the Company recognises the lease payment as an operating expense on straight line basis over the term of lease.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the period of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.

Upon adoption of the Ind AS 116 Leases, Lease liability and ROU asset have been separately presented in the Balance Sheet. A Portion of the annual operating lease costs, which was previously fully recognised as a rental / lease expense, is recorded as interest expense. In addition, the portion of the lease payments, which represents the reduction of the lease liability is recognised in the cash flow statement as an outflow from financing activities, which was previously fully recognised as an outflow from operating activities.

As a lessor

At the inception of a lease, the lease arrangement is classified as either a finance lease or an operating lease, based on contractual terms and substance of the lease arrangement. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured in accordance with lease agreement. Adoption of the new standard had no impact upon leases for which the Company is a lessor.

(viii) Depreciation and Amortisation

Property, plant and equipment

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives.

The useful lives have been taken as specified by Schedule II to the Companies Act, 2013

Notes to the Standalone Financial Statements (Contd.)

except for coding and marking machines where useful lives have been determined as seven years based on technical evaluation done by the Management and for Plant & Machineries for masks useful lives have been determined and duly certified by Chartered Engineer as three years.

Pro-rata depreciation is charged on property, plant and equipment from/up to the date on which such assets are ready to put to use/are deleted or discarded.

Intangible Assets

Intangible assets are amortised over their respective individual estimated useful life on straight line basis commencing from the date such asset is acquired for use in the Company.

Computer Software and Technical Know How are classified as intangible assets and amortised on straight line basis over a period of 6 years.

Pro-rata amortisation is charged on intangible assets from/up to the date on which such assets are acquired for use/are deleted or discarded.

(ix) Impairment of Assets

A tangible or intangible asset is treated as impaired when the carrying amount of the asset exceeds its estimated recoverable value. Carrying amounts of tangible or intangible assets are reviewed at each balance sheet date to determine Indications of impairment, if any, of those assets. If any such Indication exists, the recoverable amount of the asset is estimated and an impairment loss equal to the excess of the carrying amount over its recoverable value is recognised as an impairment loss and the same is charged to profit and loss account. The impairment loss, if any, recognised in prior accounting period is reversed if there is a change in estimate of recoverable amount.

(x) Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provision of the instrument. All the financial assets and financial liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly

attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

(xi) Financial Assets

Initial recognition

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments.

- Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss.
- Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the Statement of Profit and Loss.

Subsequent measurement

All recognised financial assets are subsequently measured either at amortised cost or fair value [either through other comprehensive income (FVTOCI) or through profit or loss (FVTPL)] depending on the classification of the financial assets as follows:

(a) Financial Asset measured at Amortised

Cost: The Company's financial assets primarily consists of cash and cash equivalents, trade receivables, loans to employees, security deposits and other eligible current and non-current assets which are classified as financial assets carried at amortised cost.

(b) Financial Asset measured at Fair Value through Other Comprehensive Income (FVTOCI):

On initial recognition, the Company has made irrevocable election in respect of purchases/acquisition on an instrument-by-instrument basis to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus

Notes to the Standalone Financial Statements (Contd.)

transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments as the same has been recognised in other comprehensive income.

(c) Financial assets at fair value through profit or loss (FVTPL): Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

(d) Financial assets at Cost: Contribution to Venture fund in form of purchase of units with lock in period of more than 12 months is classified as Non-current Investment.

Derecognition of financial assets

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired; the Company has transferred the financial asset along with all the risks and rewards or has assumed an obligation to pay the received cash flows in full to a third party under a pass-through arrangement.

On derecognition of a financial asset in its entirety, the difference between the carrying amounts measured at the date of derecognition and the consideration received is recognised in profit or loss.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables and other contractual rights to receive cash or other financial asset.

Expected Credit Loss (ECL) is the difference between all contractual cash flows that are due in accordance with the contract and the cash flows expected to receive (i.e., all cash shortfalls).

(xii) Financial Liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity. The Company's financial liabilities include long-term and short-term borrowings, trade and other payables and other eligible current and non-current liabilities.

Classification Measurement and De-recognition

All recognised financial liabilities are subsequently measured at amortised cost. The Company de-recognise financial liabilities when, and only when, the Company's obligations are discharged, cancelled, or have expired. Gain and losses are recognised in profit or loss when the liabilities are derecognised.

(xiii) Offsetting of financial instruments

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet only if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

(xiv) Valuation of Inventories

Inventories are valued at lower of cost and net realisable value after providing for non moving material, obsolescence wherever necessary. The cost of inventories have been computed to include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Inventories are carried in the balance sheet as follows:

Inventory	Basis of Valuation
Raw materials, Packing materials, Components	At lower of cost, on weighted average basis and net realisable Value
Work-in Progress	At lower of cost of material on weighted average basis, plus appropriate production overheads and net realizable value

Notes to the Standalone Financial Statements (Contd.)

Inventory	Basis of Valuation
Finished goods – Manufacturing	At lower of cost of material on weighted average basis plus appropriate share of overhead and net realizable value
Finished goods – Trading	At lower of cost, on weighted average basis and net realizable value

(xv) Translation of Foreign Currency Transactions

The Company's financial statements are presented in Indian Rupees (₹) which is Company's functional and presentation currency. Transactions denominated in foreign currency are recognised at the rates of exchange prevailing at the date of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at year end date. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise. Income and Expenses of foreign branch have been translated at the average rate for the year.

(xvi) Revenue Recognition

The Company derives revenues primarily from sale of manufactured goods, traded goods, and related services.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue from sales of manufactured goods, traded goods and related services are recognised when significant risks and rewards of ownership of the goods are transferred to the customer, recovery of the consideration is probable, the amount of revenue can be

measured reliably, and all performance obligation related to contract is satisfied. Sales are disclosed net of returns and claims.

Other operating revenue include duty drawback & Export Incentives which are recognised when the right to receive is established.

Other Income includes Interest Income, Dividend Income, Gain on Foreign Exchange Fluctuations etc. Interest Income accrued on a time basis by reference to the principal outstanding and the effective interest rate. Dividend Income accounted in the period in which the right to receive the same is established.

(xvii) Government Grants

Grants and subsidies from the Government are recognised when there is reasonable assurance that the grant/ subsidy will be received, and all the prescribed conditions will be complied with.

Grant or subsidy relating to an expense item is recognised as income in the statement of profit or loss over the periods necessary to match them on a systematic basis to the costs which is intended to compensate.

Grant or subsidy relating to an asset are included in non-current liabilities as deferred income and are credited to statement of profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

(xviii) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for their intended use. All other borrowing costs are recognised as expense in the period in which they are incurred.

(xix) Dividends

Final dividend on shares is recorded as a liability on the date of approval by the shareholders at the annual general meeting and interim dividend are recorded as a liability on the date of declaration by the Company's Board of Directors.

Notes to the Standalone Financial Statements (Contd.)

(xx) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss after tax for the period attributable to the equity shareholders by the weighted average number of Equity Shares outstanding during the year adjusted for bonus elements in equity shares issued during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss after tax for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period, are adjusted for the effects of all dilutive potential equity shares.

(xxi) Employee Benefits

Short-term Employee Benefits:

Employee benefits such as salaries, wages, short term compensated absences, expected cost of bonus, ex-gratia and performance-linked rewards falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service.

Long-term Employee Benefits:

Defined Contribution Plans:

Contributions to the employee's provident fund, Employee's Pension Scheme and Employee's State Insurance are recognised as defined contribution plan and charged as expenses during the period in which the employees perform the services.

Defined Benefit Plans:

Retirement benefits in the form of Gratuity is considered as defined benefit plan and determined on actuarial valuation using the Projected Unit Credit Method at the balance sheet date.

Interest Cost, Current Service Cost and Past Service Cost are recognised in profit and loss account immediately. Re-measurement gain and losses arising due to change in actuarial assumptions and estimates are recognised directly in Other Comprehensive Income. Such re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

Other Long -term Employee Benefit:

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date. Annual leaves can either be availed or encashed subject to restriction on the maximum accumulation of leaves.

Termination Benefits:

Termination benefits are recognised as an expense in the period in which they are incurred.

The employee benefit with regards to both Leave encashment and Gratuity are unfunded.

(xxii) Exceptional Items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and the same is disclosed in the notes to accounts.

(xxiii) Taxes on Income

Current Tax:

Tax on income for the current period is determined on the basis of estimated taxable income and computed in accordance with the provisions of the relevant tax laws, outcome of past assessments / appeals and legal opinion sought by the Company.

The Company has recognised provision for Income Tax for the year ended 31 March 2025 as per Section 115JB of the Income Tax Act, 1961 and is on the same basis as followed for the year ended 31 March 2024.

Deferred Tax:

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled,

Notes to the Standalone Financial Statements (Contd.)

based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Minimum Alternate Tax (MAT) credit:

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay income tax under the normal provisions during the specified period, resulting in utilisation of MAT credit.

In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in the Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of Profit & Loss and shown as MAT Credit Entitlement.

Consistent with the stated accounting policy, the Company has recognised deferred tax asset, being the Excess of tax on book profit paid over the Normal income tax for the past several years standing at ₹49.57 Crores allowed forward as a MAT credit, which can be utilised against the normal income tax liability in future years.

Based on the evaluation of the factors mentioned as per Ind-AS 12 "Income Taxes", the Company has determined that there is virtual certainty that sufficient future taxable profits will be available against which the MAT credit Entitlement of ₹49.57 Crores can be utilised.

Therefore, the Company has recognised a deferred tax asset of ₹ 49.57 Crores in the financial Statements for the year ended 31 March 2025.

(xxiv) Segment Reporting

The Company is engaged predominantly into manufacturing of Coding & Marking Machines and consumables thereof. The Company has only One Reportable business segment identified by Management namely

Coding & Marking Machines and consumable thereof.

(xxv) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognised but are disclosed in the notes to financial statements. Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable. Provisions, contingent liabilities are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions but are disclosed as the possibility of outflow of resources is remote.

(xxvi) Cash Flow Statements

Statement of Cash Flows is prepared segregating the cash flows into operating, investing, and financing activities. Cash flow from operating activities is reported using indirect method, adjusting the net profit for the effects of changes during the period in inventories, operating receivables, payables, transactions of a non-cash nature such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses, and undistributed profits of associates and all other items for which the cash effects are investing or financing cash flows.

For the purpose of presentation in the statement of cash flow, cash and cash equivalents includes cash on hand and balance held with banks and short term investments in liquid Mutual Funds.

* Impact of one time effect of MAT Credit of ₹ 4957.69 Lakhs forming part of Deferred Tax Expense is not considered.

52. The Company having an eligible undertaking under section 80IE of the Income Tax Act, 1961 relating to Guwahati plant has been historically subject to the Minimum Alternate Tax (MAT) provisions. FY 2024-25 is the last year where the Company is liable to pay income tax under MAT Provision. The excess of income tax on book profit paid over the normal income tax for the past several years stand at ₹ 49.57 Crores and the same is allowed to be carried forward as a MAT credit, which can be utilised against the normal income tax liability in future years. Based on the evaluation of the factors mentioned as per Ind-AS 12 "Income Taxes", the Company has determined that there is virtual certainty that sufficient future taxable profits will be available against which the MAT credit Entitlement of ₹ 49.57 Crores can be utilised. Therefore, the Company has recognised a deferred tax asset of ₹ 49.57 Crores in the financial statements and correspondingly MAT Credit Entitlement of ₹ 49.57 Crores under Tax Expenses in Statement of Profit and Loss for the year ended 31 March 2025.

61. EMPLOYEE BENEFIT OBLIGATIONS

Defined benefit plans:

Gratuity Plan

In accordance with the provisions of the Payment of Gratuity Act, 1972, the Company has a defined benefit plan which provides for gratuity, covering eligible employees. The Plan provided a lump sum gratuity amount to eligible employees at retirement, termination or death. Liabilities with regard to Gratuity plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method.

The changes in the present value of defined benefit obligation representing reconciliation of opening and closing balances thereof are as follows:

Impact of 1% change in Salary Growth rate	65.76	54.62	(57.76)	(48.62)
Impact of 1% change in Employee turnover	3.84	5.12	(4.48)	(5.83)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Sum of Years 6 to 10	295.37	293.80
Sum of Years 11 and above	1013.47	847.72

Characteristics of defined benefit plans and associated risks:

The Company has an unfunded Defined benefit gratuity plan. Gratuity is paid from company as and when it becomes due and is paid as per company scheme for Gratuity.

Gratuity is a defined benefit plan and company is exposed to following Risks:

- **Salary Risk-** The Present value of the defined benefit plan liability is calculated by reference to the future salaries of members.
As such, an increase in the salary of the members more than assumed level will increase the plan's liability.
- **Interest Rate Risk-** A fall in the discount rate which is linked to the Government securities. Rate will increase the present value of the liability requiring higher provision.
- **Asset Liability Matching Risk-** The plan faces the ALM risk as to the matching cash flow. Company has to manage payout based on pay as you go basis from own funds.
- **Mortality Risk-** Since the benefits under the plan is not payable for life time and payable till retirement age only plan does not have any longevity risk.

62. No funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries") with the understanding, whether recorded in writing or otherwise, that the Intermediary shall lend or invest in party identified by or on behalf of the Company (Ultimate Beneficiaries). The Company has not received any fund from any party(Funding Party) with the understanding that the Company shall whether, directly or indirectly lend or invest in other persons or entities identified by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

63. There is no scheme of arrangement approved by competent authority in terms of sections 230 to 237 of the Companies Act, 2013 during the year, hence relevant disclosures are not applicable.

64. Previous year figures have been regrouped, rearranged and reclassified wherever necessary.

Codeology Group Limited (UK)	Step-down Foreign Subsidiary (50.49% Owned by Control Print B.V.)
Control Print MEA FZE (U.A.E)	Wholly Owned Foreign Subsidiary

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 (the 'Act'), in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs

of the Group as at March 31, 2025, consolidated total comprehensive income (comprising of consolidated profit and consolidated other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with ethical requirements that are relevant to our audit of consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence that we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph of the Other Matters section below is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to communicate in our report with on Consolidated Financial Statements.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the consolidated financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Independent Auditor's Report (Contd.)

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, and the reports of the other auditor as furnished to us (Refer paragraph Other Matter below), we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated changes in equity and consolidated cash flow of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) as specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the Companies included in the group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of companies included in the group is responsible for overseeing the financial reporting process of each company.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for explaining our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude

Independent Auditor's Report (Contd.)

that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Group regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING OF THE GROUP UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ('THE ACT')

In conjunction with our audit of the consolidated financial statements of Control Print Limited (hereinafter referred to as the "Holding Company") as of and for the year ended 31st March 2025, we have audited the internal financial controls with reference to consolidated Ind AS financial statements of the Holding Company and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), which are companies incorporated in India, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR THE INTERNAL FINANCIAL CONTROLS

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls over financial reporting of the group based on the criteria established by the respective company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the group based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls over financial reporting of the group. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with respect to

consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting of the group and their operating effectiveness. Our audit of internal financial controls over financial reporting of the group included obtaining an understanding of internal financial controls over financial reporting of the group, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting of the group.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting of the group is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting of the group includes those policies and procedures that:

1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. Provide reasonable assurance that the transactions are recorded as necessary to permit preparation of Financial Statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of Management and Directors of the company; and
3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure- 'A' to the Independent Auditor's Report (Contd.)

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting of the group, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting of the group may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Group have, in all material aspects, an adequate internal financial control system over financial reporting of the group and such internal financial controls over financial reporting of the group were operating effectively as at March 31, 2025, based on the internal control over financial reporting of the group criteria established by the Company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

The deferred tax to be recognised for temporary differences arises from elimination of profits and losses resulting from intra group transactions.

The difference between the cost of investment and share of net assets at the time of acquisition of shares in the subsidiaries and associates is identified in the financial statements as Goodwill or Capital Reserve as the case may be.

C) Significant Accounting Policies

(i) Statement of compliance with Ind AS

The financial statements have been prepared in accordance with Indian Accounting Standard (Ind AS) notified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provisions of the Act and presented in accordance with the requirements of Regulation 33 of the listing Regulation in this regard.

(ii) Basis of Preparation and presentation

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention

Notes to the Consolidated Financial Statements (Contd.)

on accrual basis except for certain financial instruments which are measured at fair values. All assets and liabilities have been classified as current or non-current based on normal operating cycle of business activities of the Company, which is 12 months.

(iii) Use of estimates

The preparation of the financial statements requires Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(iv) Property, Plant and Equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses, if any. Freehold land is not depreciated. The cost of an item of property, plant and equipment comprises its cost of purchase and any attributable cost of bringing the asset to its working condition for its intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of the profit and loss.

(v) Capital work in progress

Property, plant and equipment under construction as well as Coding and Marking machines held exclusively for Rental prior to dispatch to Customer's location are disclosed as capital work in progress.

(vi) Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Estimated useful lives of the Intangible assets are as follows:

Computer Software	6 Years
Technical Know How	6 Years

There are no intangible assets having indefinite useful life.

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

(vii) Leases

As a Lessee

At inception of a contract, the Company assesses whether a contract is, or contain a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- The contract involves the use of an identified asset this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset.
- The Company has the right to substantially all of the economic benefits from the use of the asset throughout the period of use; and

Notes to the Consolidated Financial Statements (Contd.)

- The Company has the right to direct the use of the asset. The Company has this right when it has the decision making rights that are most relevant to changing how and for what purposes the asset is used.

At the date of commencement of lease, the Company recognises a Right-of-use asset ("ROU") and a corresponding liability for all lease arrangements in which it is a lessee, except for leases with the term of twelve months or less (short term leases) and low value leases. For short term and low value leases, the Company recognises the lease payment as an operating expense on straight line basis over the term of lease.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the period of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate.

Upon adoption of the Ind AS 116 Leases, Lease liability and ROU asset have been separately presented in the Balance Sheet. A Portion of the annual operating lease costs, which was previously fully recognised as a rental / lease expense, is recorded as interest expense. In addition, the portion of the lease payments which represents the reduction of the lease liability is recognised in the cash flow statement as an outflow from financing activities, which was previously fully recognised as an outflow from operating activities.

As a lessor

At the inception of a lease, the lease arrangement is classified as either a finance lease or an operating lease, based on contractual terms and substance of the lease arrangement. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease.

All other leases are classified as operating leases.

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured in accordance with lease agreement. Adoption of the new standard had no impact upon leases for which the Company is a lessor.

(viii) Depreciation and Amortisation

Property, plant and equipment

Depreciation is calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives.

The useful lives have been taken as specified by Schedule II to the Companies Act, 2013 except for coding and marking machines where useful lives have been determined as seven years based on technical evaluation done by the Management and for Plant & Machineries for masks useful lives have been determined and duly certified by Chartered Engineer as three years.

Pro-rata depreciation is charged on property, plant and equipment from/up to the date on which such assets are ready to put to use/are deleted or discarded.

Intangible Assets

Intangible assets are amortised over their respective individual estimated useful life on straight line basis commencing from the date such asset is acquired for use in the Company.

Computer Software and Technical Know How are classified as intangible assets and amortised on straight line basis over a period of 6 years.

Pro-rata amortisation is charged on intangible assets from/up to the date on which such assets are acquired for use/are deleted or discarded.

(ix) Impairment of Assets

A tangible or intangible asset is treated as impaired when the carrying amount of the asset exceeds its estimated recoverable value. Carrying amounts of tangible or intangible

Notes to the Consolidated Financial Statements (Contd.)

assets are reviewed at each balance sheet date to determine Indications of impairment, if any, of those assets. If any such Indication exists, the recoverable amount of the asset is estimated and an impairment loss equal to the excess of the carrying amount over its recoverable value is recognised as an impairment loss and the same is charged to profit and loss account. The impairment loss, if any, recognised in prior accounting period is reversed if there is a change in estimate of recoverable amount.

(x) Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provision of the instrument. All the financial assets and financial liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

(xi) Financial Assets

Initial recognition

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instruments.

- Financial assets are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss.
- Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the Statement of Profit and Loss.

Subsequent measurement

All recognised financial assets are subsequently measured either at amortised cost or fair value [either through other comprehensive income (FVTOCI) or through

profit or loss (FVTPL)] depending on the classification of the financial assets as follows:

(a) Financial Asset measured at Amortised

Cost: The Company's financial assets primarily consists of cash and cash equivalents, trade receivables, loans to employees, security deposits and other eligible current and non-current assets which are classified as financial assets carried at amortised cost.

(b) Financial Asset measured at Fair Value through Other Comprehensive Income (FVTOCI):

On initial recognition, the Company has made irrevocable election in respect of purchases/acquisition on an instrument-by-instrument basis to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments as the same has been recognised in other comprehensive income.

(c) Financial assets at fair value through profit or loss (FVTPL):

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

(d) Financial assets at Cost:

Contribution to Venture fund in form of purchase of units with lock in period of more than 12 months is classified as Non-current Investment.

Notes to the Consolidated Financial Statements (Contd.)

Derecognition of financial assets

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired; the Company has transferred the financial asset along with all the risks and rewards or has assumed an obligation to pay the received cash flows in full to a third party under a pass-through arrangement.

On derecognition of a financial asset in its entirety, the difference between the carrying amount measured at the date of derecognition and the consideration received is recognised in profit or loss.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables and other contractual rights to receive cash or other financial asset.

Expected Credit Loss (ECL) is the difference between all contractual cash flows that are due in accordance with the contract and the cash flows expected to receive (i.e. all cash shortfalls).

(xii) Financial Liabilities

Financial liabilities of the Company are contractual obligation to deliver cash or another financial asset to another entity. The Company's financial liabilities include long-term and short-term borrowings, trade and other payables and other eligible current and non-current liabilities.

Classification Measurement and De-recognition

All recognised financial liabilities are subsequently measured at amortised cost. The Company de-recognise financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. Gain and losses are recognised in profit or loss when the liabilities are derecognised.

(xiii) Offsetting of financial instruments

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet only if there is a

currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(xiv) Valuation of Inventories

Inventories are valued at lower of cost and net realizable value after providing for non moving material, obsolescence wherever necessary. The cost of inventories have been computed to include all cost of purchases, cost of conversion and other related costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Inventories are carried in the balance sheet as follows:

Inventory	Basis of Valuation
Raw materials, Packing materials, Components	At lower of cost, on weighted average basis and net realizable Value
Work-in Progress	At lower of cost of material on weighted average basis, plus appropriate production overheads and net realizable value
Finished goods - Manufacturing	At lower of cost of material on weighted average basis plus appropriate share of overhead and net realizable value
Finished goods - Trading	At lower of cost, on weighted average basis and net realizable value

(xv) Translation of Foreign Currency Transactions

The Company's financial statements are presented in Indian Rupees (₹) which is Company's functional and presentation currency. Transactions denominated in foreign currency are recognised at the rates of exchange prevailing at the date of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at year end date. Exchange

Notes to the Consolidated Financial Statements (Contd.)

differences on monetary items are recognised in profit or loss in the period in which they arise. Income and Expenses of foreign branch have been translated at the average rate for the year.

(xvi) Revenue Recognition

The Company derives revenues primarily from sale of manufactured goods, traded goods and related services.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue from sales of manufactured goods, traded goods and related services are recognised when significant risks and rewards of ownership of the goods are transferred to the customer, recovery of the consideration is probable, the amount of revenue can be measured reliably and all performance obligation related to contract is satisfied. Sales are disclosed net of returns and claims.

Other operating revenue include duty drawback & Export Incentives which are recognised when the right to receive is established.

Other Income includes Interest Income, Dividend Income, gain on Foreign Exchange Fluctuations etc. Interest Income accrued on a time basis by reference to the principal outstanding and the effective interest rate. Dividend Income accounted in the period in which the right to receive the same is established.

(xvii) Government Grants

Grants and subsidies from the Government are recognised when there is reasonable

assurance that the grant/ subsidy will be received, and all the prescribed conditions will be complied with.

Grant or subsidy relating to an expense item is recognised as income in the statement of profit or loss over the periods necessary to match them on a systematic basis to the costs which is intended to compensate.

Grant or subsidy relating to an asset are included in non-current liabilities as deferred income and are credited to statement of profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

(xviii) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for their intended use. All other borrowing costs are recognised as expense in the period in which they are incurred.

(xix) Dividends

Final dividend on shares is recorded as a liability on the date of approval by the shareholders at the annual general meeting and interim dividend are recorded as a liability on the date of declaration by the Company's Board of Directors.

(xx) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss after tax for the period attributable to the equity shareholders by the weighted average number of Equity Shares outstanding during the year adjusted for bonus elements in equity shares issued during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss after tax for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period, are adjusted for the effects of all dilutive potential equity shares.

Notes to the Consolidated Financial Statements (Contd.)

(xxi) Employee Benefits

Short-term Employee Benefits:

Employee benefits such as salaries, wages, short term compensated absences, expected cost of bonus, ex-gratia and performance-linked rewards falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service.

Long-term Employee Benefits:

Defined Contribution Plans:

Contributions to the employee's provident fund, Employee's Pension Scheme and Employee's State Insurance are recognised as defined contribution plan and charged as expenses during the period in which the employees perform the services.

Defined Benefit Plans:

Retirement benefits in the form of Gratuity is considered as defined benefit plan and determined on actuarial valuation using the Projected Unit Credit Method at the balance sheet date.

Interest Cost, Current Service Cost and Past Service Cost are recognised in profit and loss account immediately. Re-measurement gain and losses arising due to change in actuarial assumptions and estimates are recognised directly in Other Comprehensive Income. Such re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

Other Long-term Employee Benefit:

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation at the balance sheet date. Annual leaves can either be availed or encashed subject to restriction on the maximum accumulation of leaves.

Termination Benefits:

Termination benefits are recognised as an expense in the period in which they are incurred.

The employee benefit with regards to both Leave encashment and Gratuity are unfunded.

(xxii) Exceptional Items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and the same is disclosed in the notes to accounts.

(xxiii) Taxes on Income

Current Tax:

Tax on income for the current period is determined on the basis of estimated taxable income and computed in accordance with the provisions of the relevant tax laws, outcome of past assessments / appeals and legal opinion sought by the Company.

The Company has recognised provision for Income Tax for the year ended 31 March 2025 as per Section 115JB of the Income Tax Act 1961 and is on the same basis as followed for the year ended 31st March 2024.

Deferred Tax:

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Minimum Alternate Tax (MAT) credit:

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay income tax under the normal provisions during the specified period, resulting in utilisation of MAT credit.

In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in the Guidance Note issued by the Institute of Chartered Accountants of India,

Notes to the Consolidated Financial Statements (Contd.)

the said asset is created by way of a credit to the statement of Profit & Loss and shown as MAT Credit Entitlement.

Consistent with the stated accounting policy Company has recognised deferred tax asset, being the Excess of tax on book profit paid over the Normal income tax for the past several years standing at ₹ 49.57 Crore allowed forward as a MAT credit, which can be utilised against the normal income tax liability in future years.

Based on the evaluation of the factors mentioned as per Ind-AS 12 "Income Taxes", the Company has determined that there is virtual certainty that sufficient future taxable profits will be available against which the MAT credit Entitlement of ₹ 49.57 Crore can be utilised.

Therefore, the Company has recognised a deferred tax asset of ₹ 49.57 Crore in the Financial Statements for the year ended 31 March 2025

(xxiv) Segment Reporting

The Company is engaged predominantly into manufacturing of Coding & Marking Machines and consumables thereof. The Company has only One Reportable business segment identified by Management namely Coding & Marking Machines and consumable thereof.

(xxv) Provisions, Contingent Liabilities and Contingent Assets

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognised but are disclosed in the notes to financial statements. Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable. Provisions, contingent liabilities are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities

do not warrant provisions but are disclosed as the possibility of outflow of resources is remote.

(xxvi) Cash Flow Statements

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method, adjusting the net profit for the effects of changes during the period in inventories, operating receivables, payables, transactions of a non-cash nature such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses, and undistributed profits of associates and all other items for which the cash effects are investing or financing cash flows.

For the purpose of presentation in the statement of cash flow, cash and cash equivalents includes cash on hand and balance held with banks and short term investments in liquid Mutual Funds.

(xxvii) Goodwill

Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognised. Goodwill is initially measured at cost, being the excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed, measured in accordance with Ind AS. Goodwill arising on an acquisition of business is initially recognised at cost at the date of acquisition. After initial recognition, goodwill is measured at cost less accumulated impairment losses, if any.

(xxviii) Business Combination

Business Combinations are accounted for using the acquisition method. The cost of acquisition is measured at the aggregate of the fair values at the date of exchange of assets given, liabilities incurred or assumed, and equity instruments issued by the Company in exchange for control of the acquiree. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the recognition criteria are stated at their fair values at the acquisition date except certain assets and liabilities required to be measured as per the applicable standard.

* Impact of one time effect of MAT Credit of ₹ 4957.69 Lakhs forming part of Deferred Tax Expense is not considered.

- 52.** The Company having an eligible undertaking under section 80IE of the Income Tax Act, 1961 relating to Guwahati plant has been historically subject to the Minimum Alternate Tax (MAT) provisions. The financial year 2024-25 is the last year where the Company is liable to pay income tax under MAT Provision. The excess of income tax on book profit paid over the normal income tax for the past several years stand at ₹ 49.57 Crore and the same is allowed to be carried forward as a MAT credit, which can be utilised against the normal income tax liability in future years. Based on the evaluation of the factors mentioned as per Ind-AS 12 "Income Taxes", the Company has determined that there is virtual certainty that sufficient future taxable profits will be available against which the MAT credit Entitlement of ₹ 49.57 Crore can be utilised. Therefore, the Company has recognised a deferred tax asset of ₹ 49.57 Crore in the financial statements and correspondingly MAT Credit Entitlement of ₹ 49.57 Crore under Tax Expenses in Statement of Profit and Loss for the year ended 31 March 2025.
- 53.** There are no proceedings being initiated or pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988, Hence relevant disclosures not applicable.

Sensitivity Analysis:

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

₹ In Lakhs

Particulars	Effect of 1% increase		Effect of 1% decrease	
	As at 31 March 2025	As at 31 March 2024	As at 31 March 2025	As at 31 March 2024
Impact of 1% change in Discount rate	(60.14)	(49.86)	70.30	57.75
Impact of 1% change in Salary Growth rate	65.76	54.62	(57.76)	(48.62)
Impact of 1% change in Employee turnover	3.84	5.12	(4.48)	(5.83)

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Expected Future Cash Flows:

Sum of Years 6 to 10	295.37	293.80
Sum of Years 11 and above	1,013.47	847.72

Characteristics of defined benefit plans and associated risks:

The Company has an unfunded Defined benefit gratuity plan. Gratuity is paid from company as and when it becomes due and is paid as per company scheme for Gratuity.

Gratuity is a defined benefit plan and company is exposed to following Risks:

- **Salary Risk-** The Present value of the defined benefit plan liability is calculated by reference to the future salaries of members.
As such, an increase in the salary of the members more than assumed level will increase the plan's liability.
- **Interest Rate Risk-** A fall in the discount rate which is linked to the Government securities. Rate will increase the present value of the liability requiring higher provision.
- **Asset Liability Matching Risk-** The plan faces the ALM risk as to the matching cash flow. Company has to manage payout based on pay as you go basis from own funds.
- **Mortality Risk-** Since the benefits under the plan is not payable for life time and payable till retirement age only plan does not have any longevity risk.
