Company Overview

Long-Term Value Drivers

❑ Printer & Consumable - Annuity Model; Compounding Installed Base

Higher share of revenue from high-margin recurring consumables, spares & services vs. low margin printer sales

Installed printers generate predictable cash flows over 7–8 years due to production line integration and high switching costs

>23,000 printers installed, adding 2,500 – 3,000 units annually, creating a growing foundation for recurring revenue

❑ Smart Global Acquisitions and New Technologies

The strategic global acquisitions of Markprint BV, Codeology UK, V Shapes assets helps in diversifying the company's portfolio into future high-growth areas, including digital printing, automation, sustainable packaging, and advanced track-and-trace technologies.

This niche-acquisition-driven strategy underscores a clear focus on long-term value creation, operational synergies, and alignment with global trends toward digitization and sustainability in packaging and marking solutions

❑ Superior Return Ratios and Cash Flows in Standalone Business

ROCE of 15–20%+, reflecting disciplined capital allocation and excellent profitability on invested capital.

ROE remains robust, frequently between 15-20% on a reported basis

Annual operating cash flows consistently ≈₹50 crore over multiple years, with strong EBITDA-to-cash conversion of ~65%. This supports substantial free cash flow.

❑ Regulatory and Habit-Driven Demand

Coding/marking essential for compliance (batch numbers, QR codes) across multiple industries (FMCG, healthcare etc) and for efficient track and trace supply chain solutions.
